

**AGENDA**  
**STAYTON CITY COUNCIL**  
**Monday, March 6, 2023**  
Stayton Community Center  
400 W. Virginia Street  
Stayton, Oregon 97383

**HYBRID MEETING**

The Stayton City Council will be holding a hybrid meeting utilizing Zoom video conferencing software. The meeting will be in-person but can also be live streamed on the City of Stayton’s YouTube account. Please use the following option to view the meeting:

- 7:00 p.m. – City Council Regular Session – <https://youtu.be/D9yrCTh93-A>

- **Public Comment and Public Hearing Testimony:** Meetings allow for in-person, virtual, or written public comment. If a community member has a barrier which prevents them from participating via one of the methods below, they should contact City staff at [citygovernment@staytonoregon.gov](mailto:citygovernment@staytonoregon.gov) **no less than three hours prior to the meeting start time** to make arrangements to participate.

Comment and testimony are limited to three minutes. All parties interested in providing public comment or testifying as part of a public hearing shall participate using one of the following methods:

- **In-Person Comment:** Parties interested in providing in-person verbal public comment shall fill out a “Request for Recognition” form available at the meeting. Forms must be filled out and submitted to the Administrative Services Manager prior to the meeting start time.
- **Video or Audio Conference Call:** Parties interested in providing virtual public comment shall contact City staff at [citygovernment@staytonoregon.gov](mailto:citygovernment@staytonoregon.gov) **at least three hours prior to the meeting start time** with their request. Staff will collect their contact information and provide them with information on how to access the meeting to provide comment.
- **Written Comment:** Written comment submitted to [citygovernment@staytonoregon.gov](mailto:citygovernment@staytonoregon.gov) **at least three hours prior to the meeting start time** will be provided to the public body in advance of the meeting and added to the City Council’s webpage where agenda packets are posted.

- 
- 1. CALL TO ORDER** **7:00 PM**
  - 2. FLAG SALUTE**
    - Webelos of Boy Scout Troop 7050 – Pledge & Flag Ceremony

**Date:** Monday, March 6, 2023 3:29:21 PM

---

Dear Stayton City Council members,

In the name of Jesus Christ, I thank you for your service to our community.

I haven't been able to join one of your meetings yet, and already you may have been discussing wireless technology, especially 5G. I would like to start or add to this conversation.

We do not have a wireless technology that is safe. Wired technology is the safer technology, as studies have shown.

Several years ago, I met a man who had worked for Verizon, climbing, starting, and maintaining 3G and 4G cell phone towers. He felt that doing so had baked his brain, and he was disabled, had lost his marriage, and was unable to hold a job for long.

From personal experience, I know that using a conventional cordless landline telephone consistently on my left ear gave me more intense temporary hearing loss, temporary lumps in my face and around my ear, and lingering hearing loss in that ear.

Since those experiences, I use speakerphones, wired earbuds, or wired headsets to speak to people remotely.

When we moved to Oregon in 2009, my family and I chose the Scio and Stayton areas because the local telephone associations had put fiber optic cables in town and in many rural areas.

To this day, I use ethernet cables in my home to connect computers to the internet, and I limit the use of my cell phone. There are other measures I take to block the EMF waves and to mitigate their harmful effects.

Is this inconvenient and not the most aesthetically pleasing? A bit, but I would rather not inflict more of the harmful effects of wireless radiation on myself, my son, or anyone else.

At a city council meeting in the near future, I would like to have 20 minutes to read you a well-written article from Dr. Mercola summarizing what is known and unknown about 5G wireless technology and its effects.

Dr. Sharon Goldberg, a research physician, testified at a Michigan legislative hearing on 5G small cell towers in 2018 about what is known from 3G and 4G:

"Wireless radiation has biological effects. Period. This is no longer a subject for debate when you look at PubMed and the peer-reviewed literature. These effects are seen in all life forms; plants, animals, insects, microbes. In humans we have clear evidence of cancer now; there is no question. We have evidence of DNA damage, cardiomyopathy, which is the precursor of congestive heart failure, neuropsychiatric effects... 5G is an untested application of a technology that we know is harmful; we know it from the science. In academics this is called human subjects research." ~ Dr. Sharon Goldberg, "We Are The Evidence" Medical Advisory Board  
15 minute video: <https://www.youtube.com/watch?v=CK0AliMe-KA>

The telecom company baseline about "technology upgrades" seems to be: if it doesn't kill you instantly, that's good enough to move forward. We in the community are left to suffer the long term negative health effects, for which there are years of evidence, and to be part of experiments we did not sign up for.

In the meantime, I urge us to turn away from wireless technology; to stop replacing older wireless technology with newer versions; and to support wired alternatives, such as fiber optic which is light and copper cables.

Dr. Devra Davis and the Environmental Health Trust are a great place to dive into this topic further.
