

# Take & Make Craft Kit

## Among Us Keychain Instructions

**Materials Provided:** Shrinky Dink sheet, traceable Among Us figures, keychain ring with connector, 3 jump rings, parchment paper, 3 permanent markers

**Materials Needed:** Scissors, pliers, oven, baking sheet, oven mitt

**Optional materials:** tape, permanent markers for hats

*Please note that Adult Supervision is listed below for some steps. The amount of supervision may vary for each family and depend on your age.*

**Optional step (prep):** Cut out one or more hats to trace onto your Among Us figures.

1. Align the pre-printed designs (ghost, crewmate, word bubble) and the Shrinky Dink sheet so that the pre-punched holes match.
  - a. You can tape down the paper and sheet to prevent them from sliding while you trace.

2. Using permanent markers, trace/color in the ghost, crewmate, and word bubble (and any hats) onto the Shrinky Dink sheet. Use any color you'd like!
  - a. Use *lighter* colors if you can. When the design shrinks, everything will appear darker!

3. Cut out your traced ghost, crewmate, and bubble designs *including* the hole at the top. The hole is where you'll attach each design to your keychain.
  - a. Notice how light the ghost figure is here (and in steps 4-6)? Compare that to the "finished" photo below for an idea as to how much the colors darken when the figures shrink!

### Adult Supervision Required (Baking)

4. Preheat the oven to 325 degrees F. Place your parchment paper on a baking sheet. Place your Shrinky Dink designs on top of the parchment paper (color ink facing up).
5. Bake your design for 3 – 5 minutes. The plastic will curl and straighten out during this time (while shrinking!).
  - a. If you're unsure about the process, test a scrap piece of Shrinky Dink sheet before baking your colored figures.
6. Remove the baking sheet using an oven mitt. Let designs cool completely

### Adult Supervision Required (Tools)

7. Using pliers, attach your Shrinky Dink charms to the smaller jump rings. Open the jump rings and thread your Shrinky Dink charms through the hole.
8. Place the jump ring and charm at the desired location on the keychain.
9. Close the jump ring using pliers.

**Your final design should look similar to the photo below!**

**Share your completed project with us!**
