City Administrator's Budget Message

May 16, 2016

Honorable Mayor Porter, members of the Stayton City Council, citizen members of the Budget Committee, and citizens of the City of Stayton.

I submit for your consideration the proposed 2016-2017 City of Stayton Budget, with a General Fund budget of \$5,046,858 and a total City-wide budget of \$20,815,931. The budget before you is a significant change from our past budget presentations. We are moving our budget away from simply providing numbers and spreadsheets, and are moving to a budget that follows the best practices of local government budgeting. Government Finance Officers Association's (GFOA) Recommended Budget Practices: A Framework for Improved State and Local Government Budgeting details why the City of Stayton has changed its budgeting format. Here is what they say:

A good budget process is far more than the preparation of a legal document that appropriates funds for a series of line items. Good budgeting is a broadly defined process that has political, managerial, planning, communication, and financial dimensions. The following definition recognizes the broad scope of the budget process and provides a base for improvement of the budget process. The budget process consists of activities that encompass the development, implementation, and evaluation of a plan for the provision of services and capital assets. A good budget process is characterized by several essential features.

A good budget process:

- Incorporates a long-term perspective
- Establishes linkages to broad organizational goals
- Focuses budget decisions on results and outcomes
- Involves and promotes effective communication with stakeholders
- Provide incentives to government management and employees.

These key characteristics of good budgeting make clear that the budget process is not simply an exercise in balancing revenues and expenditures one year at a time, but is strategic in nature, encompassing a multi-year financial and operating plan that allocates resources on the basis of identified goals. A good budget process moves beyond the traditional concept of line item expenditure control, providing incentives and flexibility to managers that can lead to improved program efficiency and effectiveness.

The mission of a good budget process identifies the central goal of the budget process. It incorporates both political and managerial aspects, as well as a responsibility to report and account for the provision of services and use of resources. Communication and involvement with citizens and other stakeholders is stressed. The broad nature of the mission allows issues to be addressed that have limited the success of budgeting in the past.

The mission of the budget process is to help decision makers make informed choices about the provision of services and capital assets and to promote stakeholder participation in the process. While governments that are not in touch and do not have involved citizens may remain in business, the results are often not pleasant for the citizens or the government. Apathy is a serious illness of government. It is in the best interests of government to have involved "stakeholders." The term "stakeholder" refers to anyone affected by or has a stake in government. This term includes, but is not limited to: citizens, customers, elected officials, management, employees and their representatives (whether unions or other agents), businesses, other governments, and the media. It is vital that the budget process include all stakeholders.

The budget process should accomplish the following:

- Involve stakeholders
- Identify stakeholder issues and concerns
- Obtain stakeholder support for the overall budgeting process
- Achieve stakeholder acceptance of decisions related to goals, services, and resource utilization
- Report to stakeholders on services and resource utilization, and serve generally to enhance the stakeholders' view of government.

The importance of this aspect of the budget process cannot be overstated. Regular and frequent reporting is necessary to provide accountability, educate and inform stakeholders, and improve their confidence in the government. Communication and involvement is an essential component of every aspect of the budget process. The budget process consists of several broad principles that stem from the definition and mission described above. These principles encompass many functions that cut across a governmental organization. They reflect the fact that development of a budget is a political and managerial process that also has financial and technical dimensions.

The budget should be the centerpiece of a thoughtful, ongoing, decision-making process for allocating resources and setting priorities and direction.

The principles of the budget process follow. The Four Principles of the Budget Process:

- 1. **Establish Broad Goals to Guide Government Decision Making:** A government should have broad goals that provide overall direction for the government and serve as a basis for decision making.
- 2. **Develop Approaches to Achieve Goals:** A government should have specific policies, plans, programs, and management strategies to define how it will achieve its long-term goals.
- 3. **Develop a Budget Consistent with Approaches to Achieve Goals**: A financial plan and budget that moves toward achievement of goals, within the constraints of available resources, should be prepared and adopted.
- 4. Evaluate Performance and Make Adjustments: Program and financial performance should be continually evaluated, and adjustments made, to encourage progress toward achieving goals. Each of the principles of the budget process incorporates components or elements that represent achievable results. These elements help translate the guiding principles into action components. Individual budgetary practices are derived from these and are a way to accomplish the elements. The elements of each guiding principle are identified on the following page. The principles and elements provide a structure to categorize budgetary practices. A more detailed explanation of the principles and elements is provided in the appendix.

The Twelve Elements of the Budget Process Establish Broad Goals to Guide Government Decision Making:

- 1. Assess community needs, priorities, challenges and opportunities
- 2. Identify opportunities and challenges for government services, capital assets, and management
- 3. Develop and disseminate broad goals Develop Approaches to Achieve Goals
- 4. Adopt financial policies
- 5. Develop programmatic, operating, and capital policies and plans
- 6. Develop programs and services that are consistent with policies and plans
- 7. Develop management strategies Develop a Budget Consistent with Approaches to Achieve Goals
- 8. Develop a process for preparing and adopting a budget
- 9. Develop and evaluate financial options

- 10. Make choices necessary to adopt a budget Evaluate Performance and Make Adjustments
- 11. Monitor, measure, and evaluate performance
- 12. Make adjustments as needed

This message from the GFOA should provide the direction and the guidance for approaching our budget process. The goal of the enclosed budget is meet the standards and the objectives that are detailed as the purpose and objective of best practice local budgeting. I respect and understand that this change may feel overwhelming at first blush. I expect once you dive in, you will understand and appreciate the value of the changes that we have made. I don't want this budget to be rubber stamped. I want it to be examined, considered, and questioned. This budget is just a proposal, it is, until approved, a draft. Your thoughts and feedback will only improve the quality of the final product. This budget should be the narrative and the reflection of the values of our community, and the approval of the budget committee is the approval that this budget is working to address the values of our community.

Continuously Upgrade Public Infrastructure

Our long term budget goals are to utilize a data driven approach to proactively plan, save, and budget for a priority based approach to upgrading our public infrastructure. In the past, our budget was a copy and paste from past years, fitting projects into the arbitrary budget. This is an ineffective and unrealistic way to budget for public infrastructure improvement. We have endeavored to begin a five year capital improvement plan. This budget reflects some of that work, but we still have a long way to go. I wish we were further along in the process, but good progress has been made in a short amount of time. In the future, with the exceptions of emergency situations, public infrastructure improvements should be planned and documented well in advance of the current budget year. The budget should reflect the actual system needs. Infrastructure has life cycles, and maintenance needs during its life cycle, we need to account for these needs. Major improvements can and should be planned years in advance. Our public infrastructure is the backbone of our community. We have a lot of needs, now we just need to systematically approach meeting these needs.

Projects included in the 2016-2017 Budget include:

Streets

- Reconstruction and overlay of Marion Street, from First Avenue to Seventh Avenue.
- The City will be partnering with a developer and the North Santiam School District to upgrade a portion of Shaff Road to an arterial standard.

Water Plant

• Plant improvements of \$100,000 for the design and construction of a system that provides increased contact time to disinfection water.

Wastewater Plant

- Funding to add a pressure main from Ida Street to the Wastewater Treatment Plant.
- Funding to install Turbo Blower and replace the Positive Displacement Blower. This will help the City meet criteria for the NPDES Permit.
- Increase in 2016-2017 budget year of 14% in Capital Improvements in the collection systems and Wastewater Treatment Plant improvements.

Storm water

- Funding to construct Pollution Control Manholes for storm water. This project is a requirement of the Memo of Understanding with the Santiam Water Control District.
- Funding to clean storm water detention basins and storm sewer collection lines to help storm water capacity in collections systems and reduce flooding issues in the community.
- Increase of \$10,000 (from \$25,000 to \$35,000) for storm water maintenance and operations expense.
- Increase of \$80,000 for Capital Projects in the storm water collection systems. The 2015-2016 budget includes \$230,000, which was transferred to the Santiam Water Control District as part of the City's obligation from the Memo of Understanding with the Santiam Water Control District.
- The City is still actively working to utilize a State Grant to improve the City's Storm Water system.

Parks

- Funding of \$25,000 to build a Dog Park.
- Funding of \$100,000 to repair and upgrade the Jordan Bridge.

Economic Development

 A request for funding of \$60,000 to fund a comprehensive study to explore a viable Urban Renewal District.

Enhance Quality of Life

More and more, the trend of communities is to understand that citizens want enhancement in their communities that improve their quality of life. A house can be built anywhere, but the decision on where to build that home can be influenced by the other enhancements that a community can offer.

The proposed Wildlife Meadows subdivision will provide three new acres of parkland and the opportunity to secure an area of land for our master trails program. The City needs to continue to be aggressive in looking to enhance and expands our parks and trail system.

The City was recently awarded a \$27,000 grant from Business Oregon Infrastructure Finance Authority for the preparation of an infrastructure improvement and financing strategy plan for the Wilco Road Industrial Area. The City also met with the Regional Solutions team to discuss long-term opportunities and partnerships in this key economic area. We need to remain active and aggressive in moving forward with this project.

The proposed budget has two major items that are presented with the purpose of meeting the goal of enhancing the quality of life for our citizens. Both items are nearing the end of their lifecycles, and it is time for us to make the hard decision to re-boot their lifecycle before it is too late.

The budget proposes a \$100,000 investment in the Jordan Bridge. Unfortunately, while the bridge has been recognized as an asset, it is reaching a critical point where we either need to make a significant investment now, or take the chance of losing the bridge. We have reached this critical point for two reasons. First, we have failed to properly budget and maintain the care and upkeep of the bridge since it was gifted to the City. Second, the bridge has a design flaw. The roofline fails to adequately protect the bridge from the elements, most notably the rain on the westerly side of the bridge. These two factors have left us in a position of needing to make a major investment now. We can't change the situation we are in, but we can work to be more forward thinking and properly plan and budget for the care and maintenance of our asserts in the future, including the Jordan Bridge.

The budget proposes a \$60,000 investment to hire a professional consulting company to take an in-depth look at an urban renewal district in and around our downtown. Just the mention of Urban Renewal can cause great consternation and active and vocal critics. This can be supported by the examples of communities where Urban Renewal was improperly utilized. A rational analysis of our community will highlight that we are an example, and candidate, for what Urban Renewal was designed to address. When done right, any short-term impacts will be far outweighed by long-term gains. Urban Renewal takes patience, vision, and a solid plan. The area to be examined for Urban Renewal is the oldest part of our community, and has the greatest needs. This area has the oldest infrastructures, decayed roads, poor pedestrian access, and is reaching the natural end of its lifecycle. I understand this proposal will not be without challenges and controversy. The reality is that it's time to recognize that we need to make a concerted effort to restart the lifecycle of our oldest neighborhoods and to provide the resources to rejuvenate the urban core of our community. The proposed initial investment is steep, but if we are going to invest, we should provide the resource to do it right.

Improve Transparency and Outreach

It is critical to the success of City Government to communicate with its stakeholders. Increase in transparency has a strong correlation for the trust of our stakeholders. An increase in our outreach improves our opportunity to get feedback on the quality of work. Technology today has provided more opportunities and challenges to being more transparent, and disseminating information to all of the people of our community. Gone are the days of the local newspaper or town crier being the lone source of information. The City has focused on a multilevel approach to reach all or citizens, from the tech savvy to the luddites.

In the past two years the City of Stayton Facebook page has seen its like's increase 380%. This budget also allows for the City to move forward with a new website host and provider. This change was done after reviewing the presentations of a half dozen service providers. The new website will allow for more control over content and information, allowing for our stake holders to quickly and easily retrieve information about the City at the time most convenient to them.

The City continues to focus on the content of the utility bill newsletter, "The Word on the Street." A renegotiation of our copier contract not only lowered our monthly invoice, but will allow us to provide the newsletter in color at no additional charge.

The City has recently completed two surveys, one from the community and one from local businesses. We will continue to focus on these forms of outreach in order to get continuous feedback to help guide us on the work we are doing, and the direction we are heading.

The local newspaper is still a valid resource and we continuously communicate with them to provide any information needed to fairly and accurately report on the operations of the community.

The change of our budget process from a collection of spreadsheets to the GFOA best practices model was designed to foster both transparency and outreach. This budget document allows for all stakeholders to be able to read and understand where their resources are being used and allocated.

Continue to Promote Efficient City Government

The City needs to do a wholesale examination, revision and updates to our policies, procedures, personnel manual, job descriptions, performance reviews, internal controls, network efficiency, network security, human resource guidelines, purchasing manual, and the Stayton Municipal Code. Work has already begun on many of these issues. Recent

events and challenges have highlighted just how much work lies ahead. We need to embrace these challenges and view them as opportunities.

Here are a few highlighted budget items that address what we propose to do in 2016-2017:

- The budget proposes \$25,000 to contract with a Human Resources professional to help guide the City as we navigate through many of the changes and legal challenges. The budget proposal also allows for us to send key staff members to trainings to improve their skillsets to avoid challenges in the future.
- The budget proposes a 50% increase in funding for Information Technology Support. The budget also proposes a \$35,000 investment in improvements to update hardware and software that is still operating on 2003 technology.
- The budget proposes a 50% increase in our budget to complete the yearly audit of our finances. An adequate and complete audit is important to city administration, the Governing Body, and the citizens and stakeholders in our community.
- The budget proposes an increase in available money allowing for all members of the Governing Body to attend at least one training or conference in the fiscal year.
 We should invest in our Governing Body. This is a common practice in almost every other community in the United States; it is a best practice worth following and supporting in our community.

Acknowledgements

I want to thank each of the Budget Committee members for the time and energy you are giving to be part of this important process. The budget should tell the story of the City and it should be a reflection of the values or our community. Your input, questions, and your approval of the final budget is critical to the success of our community. The service that you are providing is done as a volunteer, and as a leader of our community, your time and effort is greatly appreciated.

The changes that have been made from this year's budget to last are substantial. I consistently hear that we are a small town. The statement is made almost as an excuse to avoid operating in a progressive, or professional manner, or as an excuse to avoid following best practices for local government. This mentality and attitude needs to end. Being a small town is a poor excuse not to be progressive, professional, and a benchmark for communities wanting to study the best practices for the operation of a local government. Our community deserves the best, and we should strive to be nothing less. We need to stop being reactionary and start being proactive. We need to demand more of ourselves. The budget that is presented to you follows the Government Finance Officers (GFOA) best practices guidelines. The City intends to submit the budget to the GFOA for consideration of their Distinguished Budget Award. This award recognizes the

importance of making your budget accessible to all stakeholders in your community so that everyone can understand and remain knowledgeable and informed about the City's finances and operations.

I would like to thank the members of the management team who took on and embraced the challenge of our new budget. The cultural shift in the process, preparation, and information provided by each department was significant. Each department understood and embraced the changes that we have made, and the final product is significantly enhanced thanks to their input and work.

I want to personally thank Andy Parks, the Interim Finance Director for his knowledge, skill, and understanding of not judging where we are at, but helping us to begin to move toward where we want to go.

Finally, this budget presentation isn't a finished product. There is a significant change from where we have been to where we are headed. Our future budgets will continue to improve, to provide more information and guidance. But, make no mistake; I am proud of this budget and what we have accomplished in a short period of time.

Respectfully submitted,

Keith D. Campbell City of Stayton City Administrator

City Overview

About

Stayton is a city in Marion County. It is located at the confluence of the Santiam Canyon and the Willamette Valley, 12 miles southeast of the state capital, Salem, on Oregon Route 22. It is south of Sublimity and east of Aumsville. Located on the North Santiam River, Stayton is a regional agricultural and light manufacturing center. The population was 7,644 at the 2010 census. Established in 1872, it was incorporated in 1891.

Form of Government

The City of Stayton is governed by a Mayor and a 5-member City Council. The Mayor is elected for a 2year term and may serve no more than three consecutive terms of office.

Council members are elected at large, with three positions up for election every two years. The two receiving the highest number of votes serve for a 4-year term and the one receiving the third highest number of votes serves for a 2-year term. The mayor and Council members do not receive a salary for their service.

To be eligible for an elected City office, a candidate must be a registered voter and have resided in the City during the 30 days immediately preceding the election. No person may be a candidate for the offices of Mayor and Council member at the same election. The Council is the final judge of the qualifications and election of its own members.

The Mayor presides over Council deliberations and is responsible for preserving order, enforcing the rules of the Council, and determining the order of business under the rules of the Council. The Mayor votes only when it becomes necessary to break a tie.

The Stayton City Council holds regular meetings the first and third Mondays of each month at 7:00 p.m. in the Council Chambers located at the Stayton Community Center, 400 W. Virginia St.

The City Administrator is appointed by the Mayor, and ratified by the City Council, to manage the affairs of the City. The City Administrator's general responsibilities are attending all meetings of the Council and keeping the Council advised of the affairs and needs of the city, seeing that Council policy is implemented, seeing that all laws and ordinances are enforced, seeing that the provisions of all franchises, leases, contracts, permits and privileges granted by the city are observed, oversight and management of the annual City budget, as well as appointing and supervising all department managers and other employees except as otherwise provided by City Charter.

The Deputy City Recorder serves as the clerk of the City Council and is responsible for attending all meetings and preparing official minutes of their meetings. The Recorder is responsible for preparation of the City Council agenda, maintaining ordinance and resolution records, preparing official meeting and legal notices and processing and maintaining all official documents and minutes of the City. The Deputy City Recorder also serves as the City Elections Officer and Records Manager.

History

Stayton was founded by Drury Smith Stayton who purchased the town site in 1866 and built a carding mill and sawmill on a watercourse of the North Santiam River. In 1872, he platted the town site, and that same year the community received a post office. A ferry crossing of the Santiam River operated from 1876 until a bridge was constructed in 1888. By 1880, a laundry had been established by Kee Sing and Tom. The first newspaper, *The Stayton Sun*, was published in 1889 by T. H. McGill.

The founder of Stayton originally wanted to name the city after his daughter, Florence Stayton. After his petition was denied by the post office because another city in Oregon was named Florence, he chose Stayton and named a street after his daughter. The city was incorporated as the Town of Stayton in 1891 after a failed attempt in 1884.

Climate

Stayton experiences a temperate climate that is usually described as oceanic with mild, damp winters and relatively dry, warm summers, like most of the Pacific Northwest.

Summers in Stayton are warm and relatively sunny but can, on occasion, be wet. The warmest month is August with a daytime average of 80.8 °F (27.1 °C) and an average low of 51 °F (10.6 °C). Because of its inland location, Stayton can experience heat waves, in July and August particularly, with air temperatures sometimes rising over 90 °F (32 °C).

Winters are described as somewhat mild and very wet. Cold snaps can occur and last for several days, and snowfall occurs a few times throughout the winter season; the city has been known to see major snow and ice storms. Spring can bring rather unpredictable weather, resulting from brief warm spells, to thunderstorms rolling off the Cascade Range. The lowest temperature ever recorded in Stayton was –7 °F (–22 °C) on December 8, 1972.

Points of Interest

Local attractions include Pioneer Park with the Stayton-Jordan Bridge, a covered bridge. A copy of the Jordan Bridge that spanned Thomas Creek east of Scio, it was moved to the park in 1988. Destroyed by fire in 1994, it was rebuilt and painted white. It is used for

social occasions such as weddings. Kingston Prairie Preserve, 3 miles (5 km) southeast of Stayton, protects a remnant of the native prairie that was once common in the central Willamette Valley. Silver Falls State Park is northeast of Stayton; it is the largest state park in Oregon and a major tourist destination in the region, popular for its camping, and for its waterfalls.

General Stayton Overview

Statistics

| 2000 Population (Census) | 6,816 |
|--------------------------------|-------|
| 2010 Population (Census) | 7,644 |
| 2015 Population Estimate (PSU) | 7,725 |

Since 2010 it is estimated that is growing at a rate of 1%. Both Marion County and the State of Oregon have grown at a rate of 3% during the same time period.

2010 Age Distribution

| Under 5 | 614 | 8% |
|-------------|-------|-----|
| 5-19 | 1,713 | 22% |
| 20-29 | 1,001 | 13% |
| 30-49 | 1,925 | 25% |
| 50-69 | 1,694 | 22% |
| 70 and over | 687 | 9% |

2010 Housing Statistics

| Occupied Housing Units | 2,882 | |
|-------------------------------|-------|-----|
| Owner Occupied Housing Units | 1,679 | 58% |
| Renter Occupied Housing Units | 1,203 | 42% |
| Family Households | 2,031 | 70% |
| Non-Family Households | 851 | 30% |
| Householder 65 years and over | 450 | 16% |

2014 Educational Attainment

17.5% of Stayton's population has less than a high school diploma. The Marion County rate is 16.3% and it is 10.6% overall for the state of Oregon.

16.2% of Stayton's population has a bachelor's degree or higher as compared to 21.8% for Marion County and 30.1% for the state of Oregon.

| Firms | 316 |
|-------------------------------|-------|
| Total Employment | 7,333 |
| % of Marion County Employment | 2.7% |

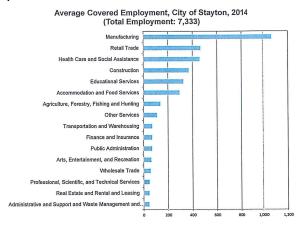

From 2006 to 2014, the City has lost nearly 850 jobs. Stayton's total employment during that time declined by 18%. Manufacturing jobs showed the largest losses totaling 730 jobs.

Number of Firms by Firm Size, Stayton 2014 (Total Firms: 316)

1-4 Emp 2%
50-99 Emp 2%
20-49 Emp 996

Firms with less than 5 employees comprise more than half the firms in Stayton and account for 7% of total employment.

Large employers, businesses with 50 or more employees, consisting of 13 firms accounted for 48% of all employment.

City of Stayton Annual Budget Fiscal Year 2016-17

Personnel

Summary

The City has maintained a steady full-time equivalent work force of approximately forty-six employees for the past few years. The proposed budget eliminates an engineering technician position that was budgeted in fiscal year 2016, but remained unfilled throughout the year. Staffing in this area will be evaluated during this year relative in conjunction with the preparation of capital improvement and maintenance schedules.

Two unions represent employees, AFSCME, which represents public works employees and administrative personnel, and the Stayton Police Officers Association, which represents police officers. The AFSCME contract expires June 30, 2016, while the SPOA agreement expires June 30, 2018, and includes a wage cost of living (COLA) increase of 2.0% effective July 1, 2016 and July 1, 2017. A COLA for AFSCME employees has been budgeted at 1.0%. The same percentage adjustment, i.e., 1.0%, in salary schedules was budgeted for management and non-represented employees.

A schedule of the full-time equivalent positions by department for the past three years and proposed budget is presented below. Similar schedules are provided in each of the departmental budgets.

Full-time Equivalent (FTE's) Employees

| | 2013-14 | 2014-15 | 2015-16 | 2016-17 |
|-----------------------------|---------|---------|---------|----------|
| Department | Actual | Actual | Budget | Proposed |
| Police | 14.5 | 14.5 | 14.5 | 14.8 |
| Planning | 1.0 | 1.0 | 1.5 | 1.0 |
| Parks | 1.9 | 1.9 | 1.0 | 1.7 |
| Municipal Court | - | - | 0.6 | 0.6 |
| Administration | 4.0 | 4.0 | 4.0 | 6.0 |
| Street | 1.0 | 1.0 | 1.0 | 1.0 |
| Library | 6.3 | 6.3 | 6.3 | 6.6 |

Changes from previous year

The proposed budget for fiscal year 2017 includes employees budgeted and accounted for in the department or fund to which they are assigned and managed, or as in the case of the code enforcement position, where they have been reorganized. Previously, these employees were budgeted and accounted for in the various department funds that they performed services and or their funding was accounted for. The following schedule identifies where the various positions are budgeted this year compared to last year.

| | Fiscal Year 2015-16 | | Fiscal Year 2016 | _ | |
|-----------------------|---------------------|-----|------------------|-----|---------------|
| Position | Department | FTE | Department | FTE | Change in FTE |
| Code Enforcement | Planning | 0.5 | Police | 0.3 | (0.2) |
| Utility Billing Clerk | Water/Sewer | 1.0 | Administration | 1.0 | - |
| Receptionist Cashier | Water/Sewer | 1.0 | Administration | 1.0 | - |
| Library Assistants | Grant Fund | 0.7 | Library | 0.7 | - |
| Maintenance Worker | Water 0.2 | | Facilities 0. | | 0.1 |
| | | | | | (0.1) |

Organization Structure

City-Wide Budget Summary

All Funds

The city's total budget for fiscal year 2016-2017 is \$20,836,231. The planned spending totals \$13.8 million, which includes transfers between City funds of \$1,691,900.

| | | | | | | Total |

Summary

Revenue has been budgeted conservatively based upon relevant factors for each type of revenue, such as assessed value and tax rate for property taxes, estimates provided by other governments, such as intergovernmental, customer usage trends for utilities and contracts for rent and other payments.

Expe

Functional Units

By Fund Type and Fund

The following table provides where the City's functional units are accounted for by fund type and fund. Additionally, the functional units/funds that are in bold and italicized are the City's major funds. Major funds are those funds that meet certain accounting requirements relative to revenue and or assets.

| General Fund | Special Revenue | Enterprise funds | Internal Service |
|------------------|------------------|----------------------|---------------------|
| functional units | funds and | and functional units | funds and |
| | functional units | | functional units |
| Public safety | Library | Water | Public Works |
| Patrol | Parks | Water SDC | Administration |
| Detectives | Parks SDC | Sewer | Facilities |
| Code enforcement | Pool | Sewer SDC | Vehicle Replacement |
| Planning | Street | Stormwater | |
| Community Center | Street SDC | Stormwater SDC | |
| Municipal Court | | | |
| Street lights | | | |
| Administration | | | |

Basis of Budgeting

The City budgets all funds on the modified accrual basis of accounting. Items such as depreciation are not budgeted. All financial transactions forecast to occur during the year, such as principal and interest on debt payments are budgeted. The City's audited financial statements, the General Fund and Special Revenue funds are accounted for using the modified accrual basis of accounting. The enterprise and internal service funds utilize the full accrual method of accounting. The primary difference between the two methods of accounting, relative to the budget basis used, is depreciation, acquisition of capital assets and principal payments on debt are handled differently, i.e., depreciation is not budgeted, acquisition of capital assets and principal payments are budgeted, but are not shown as expenditures in full accrual accounting.

Budget appropriations for authorized spending are provided for all of the funds noted above. The amount of the appropriations are as presented in the "Adopted Budget" column of the budget summaries presented by fund.

General Fund

Summary

The General Fund accounts for the City's police, municipal court, planning, administration, city council, community center, street lighting, and discretionary non-departmental activities.

The primary revenue sources include property taxes, intergovernmental such as state shared revenues, cigarette and liquor taxes and various grants, franchise fees, license and permits, charges for services, transfers from other funds for administrative services benefitting those funds, and miscellaneous.

Highlights

Fund balance

- The ending fund balance June 30, 2015 of \$1,224,958, an increase of \$159,832, or 15.0%.
- The projected ending fund balance June 30, 2016 is \$1,257,258, an increase of \$32,300, or 2.6%.
- The budgeted ending fund balance as of June 30, 2017 is \$1,052,458, a reduction of \$204,800, or -16.3%.
- The budgeted ending fund balance is estimated to exceed six months of working capital, exceeding the desired minimum amount of five months.

Staffing

• There is a reduction of 0.2 FTE positions, with a 0.5 FTE code enforcement position reduced to 0.3 FTE.

Programs

- Funding is included to move forward with decisions related to the creation of an urban renewal district.
- An increase in funding is provided to address deficiencies in the City's computer system networks and related technology.

Changes from previous year

The Parks Department has been separated from the General Fund and consolidated with the Parks Construction Fund in a special revenue fund.

Certain expenditures previously recognized in various funds that are managed by others without management responsibility for that department or fund are recognized in the department that provides direct management oversight of these services. Examples include but are not limited to legal, audit, personnel, and information technology services. The costs of these services are included in the Administration Department, with the costs recovered from the funds that receive the benefit of these services through inter-fund transfers.

The inter-fund transfer methodology has been updated for Administration, Mayor and City Council. Costs are recovered from funds from all funds with operations that receive administrative services. Previously, several of these funds, such as the Swimming Pool and Library, received services; however, the costs for these services were unrecognized.

Revenue

Overall, revenue for fiscal year 2017 is budgeted to increase \$378,800, 11.1%. The primary driver of this increase is transfers from other funds, which is increased by \$326,105. The increase is primarily attributable to recognizing costs that previously were expensed directly into various funds, including personnel costs, are now recognized and managed in the Administration. These costs include two personnel, outsourced information technology services, legal, and audit. Additionally, the methodology to allocate and recover costs was replaced with a proven methodology that may be updated annually to reflect changes in activities.

Property taxes are estimated to increase 3.1%, which is the average during the past three years. Franchise fees are estimated for a small increase, less than 0.5%, representing the average during the past three years. Other revenue categories are generally flat.

Revenue that is not expected to be received is not budgeted.

Property taxes

Property taxes are received via a levy against all property within the City.

Intergovernmental

Revenue from other local, state and federal sources, such as liquor and cigarette taxes and state shared revenue.

Franchise fees

Franchise fees are received from various utilities and other companies using the public right of way.

Licenses and permits

Building permits, business licenses are included in this revenue category.

City of Stayton Annual Budget Fiscal Year 2016-17

Charges for services

Charges for reports, fingerprinting, and other customer requested services provided.

Miscellaneous

Interest, facility rent are among the revenues in this category.

Transfers

Revenue from transfers from other funds for the cost of administrative related services accounted for in the general fund.

Expenditures

Budgeted expenditures total \$4,014,700, an increase of \$443,492, 12.4%. The primary driver of the increase is budgeting personnel, legal, human resources, audit, website maintenance and information technology services within the Administration Department, rather than allocating these costs directly to various funds. These costs are recovered via transfers as noted above. The increase in Administration related to these costs is approximately \$410,500.

The Police Department budget is increased \$172,500, 7.6%, which includes acquisition of a vehicle (\$56,000) and a transfer to Facilities Development Fund (\$39,000). Excluding recognition of these items in the Police Department, the budget is increased approximately \$52,559, 2.7%.

Police

Summary

The Stayton Police Department is a full-service, 24 hours a day law enforcement organization providing police services and records management to the city of Stayton. Our top priority is the preservation of life and property.

We strive to be relevant in our community by providing essential police services, supporting a detective unit, maintaining a school resource officer, connecting with the community, an enhanced traffic safety program, and making computer crimes a priority. In addition to these six goals, other projects include:

- Foot, motorcycle, and bicycle patrols
- Crime prevention
- Drug investigations
- A variety of investigative assignments

The department's staff consists of 13 sworn FTE, 1.5 civilian FTE, and 10 volunteers. Our numbers represent a Chief, Lieutenant, two Patrol Sergeants, nine Patrol Officers, one Detective, one and a half time Records staff, and one narcotic K9 named Brodie.

Our volunteer staff is comprised of reserve police officers and civilian office volunteers. The Stayton Police Department relies heavily on the volunteer staff to augment patrol.

As a member of a growing community, the police participate in the support of the community through area programs including "National Night Out," "Coffee with a Cop," a citizen Police Advisory Board, the Stayton Friends of the Family, among many others. We are also in the development stages of creating a Citizen Police Academy.

The Department also proudly sponsors and participates in many youth related programs. These programs include child car seat inspections, free bicycle helmets for kids, youth peer court, and the Junior Police Fishing Derby.

Highlights

- In the 2015-2016 budget, the Department implemented an electronic citation program in conjunction with the Stayton Municipal Court. This coming year, our department plans to expand this program.
- Implement an equipment replacement program including updating of the patrol vehicle computer system.
- Continue to improve our six goals and priorities for the Department.

Changes from previous year

- The Code Enforcement position is reorganized from the Planning Department
- The department is paying Facilities, budgeted in transfers, based on a monthly rental rate of \$0.65 per foot
- The department is purchasing vehicles, with no transfer to vehicle replacement in fiscal year 2016-17

Planning

Summary

The Planning Department is a state-mandated function responsible for administering state land use laws and ordinances specific to the City of Stayton. The Department supports and advises the City Council and Planning Commission regarding all planning and land use matters, the Department is staffed by a full time Planner. Staff responsibilities include staffing Planning Commission and City Council meetings as needed, providing customer service and assistance in interpreting Stayton's municipal codes and processing a wide variety of different land use applications and actions. Long range planning activities include periodic updates of the City's Comprehensive Plan and special projects such as commercial or multi-family design standards and code improvements. The Planning Department assumes responsibilities for management of the City's Geographic Information System.

The Planning Department is responsible for long-range planning for the future of the city, preparation of amendments to land use regulations, and administration of land use ordinances for the City of Stayton. The department serves under the direction of the City Administrator, City Council, and the Planning Commission.

Long range planning programs currently in progress include fostering long term sustainable economic development and continued improvement of the Land Use and Development Code.

Some land use applications regularly handled by the Planning Department include annexations, comprehensive plan and zone map amendments, site plan reviews, conditional uses, variances, subdivisions and planned unit developments.

Planning Commission Members & Terms

Community Center

Summary

The Community Center Complex consists of 7.65 acres of park located along the Salem Ditch off of First Avenue. This site contains the Community Center building, the Stayton Family Memorial Pool, three tennis courts, horseshoe pits, a playground, library, parking, a picnic area, and an open recreation field.

The City of Stayton Community Center was dedicated in 1979 and located at 400 W. Virginia St. near the Stayton public Library. The Community Center is the official meeting place for the City Council and other groups. This facility brings people together for social and civic functions throughout the year. The Community Center's location and a floor plan are available from links on the City's website.

The Community Center has a total of 3,337 square feet available for events. The hall can be divided into two portions. The north end has 1,112 square feet available and the south end has 2,224 square feet available. There is also a kitchen facility and restrooms. During business hours, a tour of the Community Center can be arranged through Public Works.

Materials and equipment available:

- · Twenty 6-foot tables
- Two 8-foot tables
- Approximately 150 chairs
- 100-cup coffee pot (available upon request w/ \$25 deposit)
- Podium/microphone setup with rental of the entire community center
- Projection Screen with rental of the entire community center

The Community Center is available for dances, weddings, receptions, parties, meetings, and concerts as well as for other events. Under certain circumstances and with additional fees, alcoholic beverages may be served in the building. Security may be required at

events and \$25 key required for

there is a deposit the facility.

City of Stayton Annual Budget Fiscal Year 2016-17 Page 39 of 135

Highlights

- Community Center was rented 109 times.
- Continues to serve Senior Community with Senior Meal Program.

No capital outlay is planned in fiscal year 2016-17.

Municipal Court

Summary

Stayton's Municipal Court program was initiated in 2014 as Marion County closed the East Marion Justice Court. The Court has jurisdiction over traffic citations and violations of the Municipal Code. The Judge is appointed by the Mayor and works under contract for the City. This fund also covers the cost of a part-time Court Clerk.

Highlights

- 40 Court dates
- 46 Trials held
- 845 cases processed

Changes from previous year

No changes.

Performance Measures

- Timely prosecution of cases
- Timely adjudication of cases
- Timely collection of fines

No capital outlay is planned in fiscal year 2016-17.

Administration

Summary

The Administration Department represents the core function of the City organization. Administration includes the Mayor and City Council, City Administrator's Office, City Recorder, Human Resources, Finance and Information Technology.

Mayor and City Council

The Mayor and City Councilors serve as the organizations "board of directors," providing governance, appointing the City Administrator, establishing rules and regulations, policy, approving contracts, adopting the budget and setting the direction of the organization.

Highlights

Funds for additional training included

Changes from the previous year

The City Council budget is separated from Non-departmental (General Operations)

City Administrator

The City Administrator is appointed by the Mayor, and ratified by the City Council, to manage the affairs of the City. The City Administrator's general responsibilities include:

- Attending all meetings of the Council
- Keeping the Council advised of the affairs and needs of the city

- · Seeing that Council policy is implemented
- Seeing that all laws and ordinances are enforced
- Seeing that the provisions of all franchises, leases, contracts, permits and privileges granted by the City are observed
- Oversight and management of the annual city budget
- Appointing and supervising all department managers and other employees except as otherwise provided by City Charter

Deputy City Recorder

The Deputy City Recorder serves as the clerk of the City Council and is responsible for attending all meetings and preparing official minutes of their meetings. The Recorder is responsible for preparation of the City Council agenda, maintaining ordinance and resolution records, prepares official meeting and legal notices and processes and maintains all official documents and minutes of the city. The Deputy City Recorder also serves as the City Elections Officer and Records Manager.

Human Resources

Human resources are managed by the City Administrator with assistance from outside consultants.

| Account | | 13-14 | 14-15 | 15-16 | 16-17 | 16-17 | 16-17 | 16-17 | |

| 62010 | Contract - Human Resources | - | - | _ | _ | 25.000 | 25.000 | 25.000 | |

Finance

Finance related activities include City-wide support for budget development and preparation, accounting, financial reporting, billing and collection, accounts payable, and payroll. The City's annual financial statements are audited by an independent auditor.

Changes from previous years

- Funding for outsourced human resources
- Costs associated with the City's audit, outsourced information technology services, legal, and website are fully budgeted in Administration
- Utility billing and cashier/reception staff positions are budgeted in Administration

 A cost allocation methodology was created to support the transfers from various funds for administration, finance, information technology, and other services they receive including the costs noted above

Non-departmental (Operations)

Summary

The Non-departmental area of the General Fund budget accounts for transfers to other funds to support their operation and non-recurring expenditures not specific to a department or fund. It accounts for a variety of expenses that tend to be common to the entire fund and many may not be easily identifiable in respect to any specific department. This is also the area of the General Fund budget where any funds set aside as unappropriated or for contingency purposes are reflected.

Changes from previous year

- Expenses that are specific to a department and managed by that department are recognized in that department
- Contingency is 5.0% of overall general fund expenditures
- Unappropriated fund balance is intended to be the minimum carryover for fiscal year 2017-18
- Contingency and unappropriated amounts are not included in non-departmental

Highlights

 \$60,000 is budgeted for consultants to assist the City with decisions related to creation of an urban renewal district

Street Lights

Summary

The Street Light budget provides funds for maintenance and power costs related to Stayton's street lights. Pacific Power & Light maintains the street lights and the City pays a monthly fee for each street light, the amount of which is dependent on the type of street light installed.

Highlights

- Three street lights in Pioneer Park on Park Avenue, were rewired to be powered from underground powerlines, eliminating overhead wires.
- Began to review LED streetlight replacement program with Pacific Power.

Changes from previous years

No changes from 2015-2016 budget.

Street Lights Budget

| Account | Description | 13-14 | 14 -15 | 15 - 16 | 15 - 16 | 16 - 17 | 16 - 17 | 16 - 17 |
|-----------|---------------------------|---------|---------|---------|-----------|----------|----------|---------|
| Number | | Actual | Actual | Budget | Estimated | Proposed | Approved | Adopted |
| 52510 | Electricity | 103,420 | 107,252 | 114,185 | 100,700 | 115,000 | 115,000 | 115,000 |
| 52515 | Street Light Installation | - | - | 2,500 | | - | - | - |
| | Materials and Services | 103,420 | 107,252 | 116,685 | 100,700 | 115,000 | 115,000 | 115,000 |

Note: Although not implemented by recent City Councils, the Stayton Municipal Code does provide for a "Street Light Service Charge" designed to recover the cost of this function.

Other Requirements

Summary

Contingency and unappropriated fund balances are included in other requirements.

The contingency amount budgeted is five percent (5.0%) of general fund expenditures. The balance is unappropriated for carryover to fiscal year 2017-18.

The combined totals of contingency and unappropriated amounts are in excess of the amount needed to fund general fund operations without borrowing until property taxes are received in November.

Library Fund

Summary

The mission of the Stayton Public Library is to provide timely access to information and ideas, promote reading, knowledge and culture, and the advantages and pleasures of

learning for people of all ages. The library provides a number of specialty programs and services to patrons, such as large print books, periodicals, Spanish language materials, audio books and music on CDs, and DVDs, etc. The library is a member of the Chemeketa Cooperative Regional Library System (CCRLS) which allows for on-line searching and access to eighteen other CCRLS libraries. The library is open six days per week.

Highlights

The Library's author series was well attended over the past year. We hosted 15 different authors with the added incentive of wine, cheese, and crackers. Our children's Dr. Seuss' birthday party brought in over 100 patrons. The Outreach Storyteller made 40 visits to daycares, kindergarten classes, and Head Start, reading to well over 400 kids two times a month. Another wildly popular event is the Stuffed Animal Sleepover, which will be included in next year's calendar of events. In addition, the Library also hosted an engaging talk of end-of-life care that was facilitated by Oregon Humanities.

Changes from previous year

The Stayton Library Foundation put on two fundraising programs this past year. The Brews, Bites, and Books event, as well as the Father-Daughter Ball, which were both very successful and fun was had by all. The Library's Outreach Storyteller, which is partly funded by the Foundation, was able to increase the number of visits she makes. We've also started a new monthly Art Club headed up by volunteer Misty Sears, which has become very popular.

No capital is budgeted in fiscal year 2016-17.

Parks Fund

Summary

The City of Stayton owns and maintains pedestrian trails, mini-parks, neighborhood parks, community parks, and natural open spaces. The City maintains 12.7 acres of neighborhood parks, 7.65 acres of community parks, and 106 acres of open space parks. The City's parks system is highly valued by residents and visitors because they help make Stayton a livable community.

Jordan Bridge

The Jordan Bridge is located in Stayton's Pioneer Park at 450 N. 7th Ave. and is a beautiful location for events such as weddings, receptions, family reunions, etc.

The Bridge can be reserved for a minimum of 3 hours for \$100 with each additional hour at \$20. Under certain circumstances and with additional fees, alcoholic beverages may be served in a designated area and security may be required. Electricity is also available.

Park Shelter Rentals

The covered picnic shelters are available on a first come, first serve basis. If you wish to use the shelter you, or a person from your group, need to be present at the shelter at all times and items may not be left unattended.

Community Center Park

The Community Center Complex consists of 7.65 acres of park located along the Salem Ditch off of First Avenue. This site contains the Community Center building, the Stayton Family Memorial Pool, three tennis courts, horseshoe pits, a playground, library, parking, a picnic area, and an open recreation field.

City of Stayton Annual Budget Fiscal Year 2016-17

Page 55 of 135

Highlights

- The City met its goal of raising \$100,000 to match the Ford Family Foundations grant of \$100,000 for the Pioneer Park Rehabilitation Project.
- The Pioneer Park Rehabilitation Project was completed.
- The City was awarded \$72,320 from the Oregon Parks and Recreation District for the replacement of Pioneer Park Pedestrian Footbridge.

Changes from previous year

- The City will invest \$48,213 to meet the matching requirement for the Pioneer Park Pedestrian Footbridge Grant.
- New separate fund includes operations and capital activity.

Performance Measures

- 7.08 acres of neighborhood parks.
- 17 acres of community parks.
- 150 acres of open space parks.
- Mows and edges all parks, the library and court house lawns.
- Daily cleaning of maintenance of 3 restrooms.
- Monthly park play equipment inspections.
- · Maintain trails and paths in parks.
- Maintain of outdoor basketball, handball and tennis courts.
- · Maintain picnic shelters.
- Maintain irrigations systems in all the parks, community center, library, courthouse and community garden.
- Tills and prepares community garden for community users.

Parks SDC Fund

Summary

The Park System Development Fund receives revenues from parks System Development Charges (SDC) assessed against residential development only, as outlined in Chapter 13.2 of the Stayton Municipal Code. Residential developers pay a flat fee SDC in an amount based on the adopted Parks System Master Plan.

Highlights

- Positive outlook for Parks SDC collection.
- Transfer to the Parks Fund for a dog park
- The City collected \$21,362 in SDCs for the Parks Fund.
- Transferred \$400 to the General Fund.
- Transferred \$30,000 to the Parks Construction Fund.

Changes from the previous year

 The administrative portion of the SDC fee is recognized directly in the General Fund, eliminating the transfer to the General Fund.

Did you know?

The City of Stayton will add a 3+ acre park to their inventory when the Wildlife Meadows subdivision is complete. The parks will include a walking path, a pond and a variety of new plantings.

Pool Fund

Summary

The Swimming Pool Fund provides funding to maintain and operate Stayton's covered swimming pool located at 333 W. Burnett Street. The pool budget is designed to provide annual operation and maintenance objectives (chemicals, pump repair, supplies, electrical, gas expenses, etc.) Revenues for this fund are received from a combination of local option tax levy funds, General Fund subsidy. The YMCA manages the day to day operations and programs for the pool.

Highlights

Repair work will be completed on the slide during the summer shutdown.

Changes from previous year

- Expenditures include a transfer to General Fund for administrative services
- Audit expenditure is accounted for in the General Fund Administration

Staffing

The City contracts with the YCMA to staff the pool.

Street Fund

Summary

The City of Stayton maintains 33.3 miles of streets. There are 26.3 miles of fully improved streets (curb and gutter on both sides, partially improved), 3.1 miles of partially improved streets (only one curb and gutter), and 3.87 miles of unimproved streets (paving, but no curb or gutter).

Stayton's Mayor and City Council have agreed Stayton's streets need to be improved. In fact,

every City Council since 1984 has identified "Street Maintenance" as a priority. In 2007, the City completed a pavement management study which evaluated the condition of every street in the city. The report recommended the City spend \$350,000 to \$500,000 annually to preserve the city's street system and prevent further deterioration of the pavement. Existing revenues don't generate enough money to make this level of investment. In a 2009 community survey more than half of Stayton residents rated the city's streets as "poor" or "very poor" and 75% agreed the City should spend more money on street maintenance. This sentiment was reaffirmed again in the spring of 2015 when in a City Survey 7 of 10 Stayton residents answered Street Maintenance should be one of Stayton's top three priorities. The challenge has been finding funds to pay for routine street maintenance and reconstruction. The Mayor and City Council have considered several funding options including a local gas tax, bond issues, and local option tax levies. In December 2010, the Council adopted the Transportation Maintenance Fee to raise \$80,000 to \$90,000 annually for street maintenance.

Each year the City receives a portion of state gasoline taxes (\$400,000/year) to help pay for the on-going maintenance of the City's street system. Gas taxes pay for personnel, materials, vehicles, public works shop facility, administrative and capital expenses related to the 34.6 miles of City-owned streets inside the city limits. The City has one full-time public works employee assigned to street operations and maintenance. Services include regular sweeping, traffic signal maintenance, sign installation and replacement, striping, sanding, and minor street repair and improvements. The City spends about \$135,000 annually for gravel and paved street maintenance. For example in 2016, the City completed a Pavement Management Project which removed just under a half a miles of degraded asphalt in Ida Street. The City spends about \$175,000 annually for street overlay projects. The City has for example in 2016 repaved (overlaid) Western Avenue from Gardner west to the end of Western Place. Street reconstruction projects rarely

happen in Stayton but the City budgeted \$250,000 for a street reconstruction project in 2015-2016 budget cycle and it was not used.

For a brand-new street, the expected service life is between 20 to 40 years, which is how long the street will hold up before full reconstruction is typically needed. However, with

proper application of pavement maintenance processes (such as crack sealing, slurry sealing or grind/inlay) at the proper time, the service life can be extended two to three times longer. Once a street deteriorates to the point that it requires major repairs, it's typically six times costlier to fix it than to do timely pavement maintenance.

And even though pavement maintenance is done on more frequent intervals than reconstruction, it still saves money. You can best understand why pavement maintenance is so important by understanding how a street deteriorates. Vehicle traffic and weather break down the surface of a street, causing cracks to appear. The cracks allow water to get below the surface, to the structure of the street, weakening it and breaking it down. As the subsurface erodes, "alligator" cracks appear on the surface, indicating the foundation is beginning to fail. When the damage reaches the critical stage, potholes appear, meaning the subsurface has fallen apart causing the surface to collapse. Even though temporary pothole patches are done, by the time potholes appear, the surrounding paving and subsurface are so deteriorated that patching materials won't properly adhere or withstand traffic loads, and the patches quickly fail. Regular pavement maintenance can add life to a street by repairing the surface layer to prevent water from getting to the substructure below. And since pavement maintenance costs a fraction of street reconstruction, action now saves a lot of money later.

The Transportation Maintenance Fee is charged monthly to every utility customer in Stayton. The key concept of a TMF is that everyone benefits from the transportation system (we all use city streets) and everyone should pay part of the cost of preserving them. The amount of the fee is based on the impact a property has on the transportation system. For example, a single family home generates an average of 10 vehicle trips per day in and out of the house; an apartment generates 6 vehicle trips per day. A typical business would pay more than a residence because it generates more traffic and has more of an impact on the system. The City Council agreed a single family home should pay \$2.00 per month and the TMF for commercial, industrial and non-residential uses should be capped at \$20 per month.

Highlights

- Completed the Western Avenue Overlay Project.
- Completed the 2016 Street Maintenance Project.

Changes from previous year

- No Significant changes.
- The City will be reconstructing/ Overlaying Marion Street from First Avenue to 7th Street.
- The City will be partnering with a developer to construct Shaff Road to an Arterial Standard.

Performance Measures

- Curb miles swept by Stayton Street Sweeper.
- Material / debris removed from streets.
- Cold Mix Applied to Potholes.

Effectiveness Measures

- 1,743 curb miles swept.
- 1,457 cubic yards of material removed and hauled to the dump.
- 7,170 pounds of cold mix applied to potholes around the City.
- Ida Street pavement patching.

- Street Vision Clearance-vegetation control at intersections and along public streets.
- Collected 391 pounds of food through the Fall Yard Debris Drop Off Project.
- Repaired railing on Second Avenue and High Street Bridge.
- The number of complaints regarding the conditions of the streets in Stayton continues to be an issue. The City just does not have the funds available to keep up with the demand.

Street SDC Fund

Summary

The Street System Development Fund receives revenues from Transportation System Development Charges (SDC), as outlined in Chapter 13.12 of the Stayton Municipal Code. Developers pay a Street SDC based on the adopted Transportation System Master Plan.

Highlights

- The City collected \$46,284 in SDCs in the 2015-2016 Budget cycle to go to future Master Plan Improvements.
- Transferred \$2,100 to the General Fund.

Changes from previous year

- The City collected 31% more SDCs than the previous year.
- The City did not distribute and SDC funds for Street improvements in the 2015-2016 budget year.

Water Fund

Summary

The Water Department provides water treatment and delivery of clean drinking water to residential, commercial, and industrial customers. Fresh water is delivered from the North Santiam River via the Stayton Power Canal, into the City's slow sand filtration system. Once the water is treated, it is then delivered to residential, commercial, and industrial

customers through 44 miles of water distribution lines.

This budget provides funding to meet annual maintenance objectives (line repairs; meter reading; replacement and new installation of meters; repair, maintenance, and replacement of hydrants; treatment plant maintenance; pump repair; slow sand filter cleaning; treatment chemicals; tracking and billing water charges, etc.). Revenues for this budget are received from water utility fees. Staff includes three Maintenance Worker positions, a Chief Operator, Public Works Supervisor, and portions of the salaries of the Receptionist/Cashier, and Utility Billing Clerk.

Highlights

- Funding to replace services along the Western Avenue, from Gardner to the west end
 of Western Place.
- Install new 8-inch water line and two fire hydrants on High Street.
- Funding to fully integrate our water meters into radio read technology.
 - Currently 88% are radio read meters, 12% are the older manually read meters.
 - Upgrading to a fully integrated radio read system will reduce time to read meters and make the entire process more efficient, thereby saving the taxpayers money.
- The City entered into an outside services contract to perform leak detection on the east side of Stayton.

Changes from previous year

 Rates are to remain neutral but the administration may propose adjustments at a future date.

 Plant improvements were increased \$100,000 for the design and construction of a system that provides more contact time to increase disinfection of water prior to leaving the Water Treatment Plant.

Performance Measures

- Operate and maintain sand filter water treatment plant.
- Operate and maintain 44.5 miles of water lines.
- Repair water lines, water meters, replace fire hydrants, repair leaking lines, flush lines and meter reading.

Effectiveness Measures

- The Water Treatment Plant treated and produced 39,618,000 gallons of water.
- Replaced 58 water meters.
- Repaired leaking lines found during the leak check project. The water loss prior to repairs was approximately 1.5 million gallons per month.
- Installed 215 radio meters.
- Installed new water services along Western Avenue in conjunction with the Western Avenue Overlay project.
- Installed 660 l.f. of 8-inch waterline on High Street.
- Installed 4 fire hydrants.
- Cleaned 3 sand filter beds.

Staffing

| | 2013-14 | 2014-15 | 2015-16 | 2016-17 |
|-----------------------|---------|---------|---------|----------|
| | Actual | Actual | Budget | Proposed |
| Water Plant Operator | 1.0 | 1.0 | 1.0 | 1.0 |
| Maintenance Workers | 2.5 | 2.5 | 2.5 | 2.3 |
| Field Assistant | 1.0 | 1.0 | 1.0 | 1.0 |

| Utility Clerk* | 0.5 | 0.5 | 0.5 | |
| Total FTE's Water | 5.5 | 5.5 | 5.5 | 4.3 |

Finance employees - moved to Administration

Capital Outlay

- Replace services along the Western Avenue, from Gardner to the west end of Western Place
- Install new 8-inch water line and two fire hydrants on High Street
- Complete water meter radio read technology program

Water SDC Fund

Summary

The Water System Development Fund receives revenues from water System Development Charges (SDC), as outlined in Chapter 13.12 of the Stayton Municipal Code. Developers pay a Water SDC based on the adopted Water System Master Plan.

Highlights

- The City collected \$31,160.172 in SDCs in the 2015-2016 budget year.
- Transferred \$870 to the General Fund.

Changes from the previous year

- The City experience a 54% drop in SDCs from what it received in 2014-2015.
- The Administrative Fee portion of the SDC fee will be received directly to the General Fund, eliminating the transfer to the General Fund.

Sewer Fund

Summary

The Sewer Enterprise Fund provides funding to transport and treat raw sewerage for residential, commercial, and industrial customer in Stayton and Sublimity. Sewerage is delivered to the Wastewater Treatment Plant via 33 miles of sanitary sewer collection lines and 5 sanitary sewer lift stations in Stayton. Annual maintenance objectives include sewer line cleaning, televising, repair, replacement, lift station maintenance, treatment plant maintenance, pump maintenance, sludge disposal, tracking and billing sewer charges, etc. Revenues for this fund are received from Stayton sewer user fees as well as monthly flow-related fees from the City of Sublimity. Current staffing includes the Wastewater Supervisor Chief Operator, 4.5 Maintenance worker positions, and portions of the salaries of the Receptionist/Cashier and Utility Billing Clerk.

Highlights

- Funding to add pressure main from Ida Street to Waste Treatment Plant. This is a Sanitary Sewer Master Plan Priority.
- Funding to install Turbo Blower and replace the Positive Displacement Blower. This will help the City meet criteria form the NPDES Permit.

Changes from previous year

• Increase in 2016-2017 budget year of 14% in Capital Improvements in the collection systems and Wastewater Treatment Plant improvements.

Performance Measures

- Operate and maintain 33 miles of sanitary sewer collection lines, and five (5) sanitary sewer lift stations.
- Operate and maintain Wastewater Treatment Plant.

Effectiveness Measures

- The City treated 559,226,000 gallons of sewerage in the 2015-2016 budget year.
- Televised inspection of 5.65 miles of sewer lines.
- Patched 30 locations of 24 inch pipe for a total of 60 linear feet of patches.
- · Repaired 21 manholes form leaking.
- Designed and contracted to remove the Fern Ridge lift Station (ongoing)
- Designed and contracted to construct 170 linear feet of 12 inch sewer line, 1,485 linear feet of 10 inch pipe, and 7 new manholes (ongoing).
- Contracted to add a third pump at the Mill Creek Pump Station (ongoing).
- Contracted to rebuild the backup Belt Filter Press at the Wastewater Treatment Plant.
- Contracted with Consultant to design 24 inch pressure main from Ida to the Waste Water Treatment Plant (Sewer Master Plan Priority)

- Procured additional site for Sludge disposal.
- Obtained NPDES Permit from DEQ; to include qualification to produce and distribute Class A Biosolids.

Capital Outlay

- Pressure Main from Ida to Wastewater Treatment Plant
- Instillation of Turbo Blower.

Sewer SDC Fund

Summary

The Sewer System Development Fund receives revenues from sewer System Development Charges (SDC), as outlined in Chapter 13.12 of the Stayton Municipal Code. Developers pay a Sewer SDC based on the adopted Sewer System Master Plan.

Highlights

Estimated collections of \$20,600 in SDC Fees.

Changes from the previous year

- The administrative fee portion of the Sewer SDC will be received directly to the General Fund
- · The transfer to the General Fund is eliminated

Storm Water Fund

Summary

The Storm Water Enterprise Fund provides funding to transport raw storm water for residential, commercial, and industrial customer in Stayton. Annual maintenance objectives include storm basin and storm line cleaning, repair replacement, tracking and billing storm charges, etc. Revenues for this fund are received from Stayton storm user fees. Current staffing includes one Collection System Operator.

Highlights

- Funding to construct Pollution Control Manholes for storm water prior to entering Salem Ditch. This is a requirement of the Memo of Understanding with the Santiam Water Control District.
- Funding to clean storm water detention basins and storm sewer collection lines to help storm water capacity in collections systems and reduce flooding issues in the community.

Changes from previous year

- Increase of 260% (from \$25,000 to \$65,000) for storm water maintenance and operations expense.
- Increase of \$80,000 for Capital Projects in the storm water collection systems. The 2015-2016 budget shows a \$230,000 budgeted amount. This amount was transferred to the Santiam Water Control District as part of the City's commitment from the Memo of Understanding.

Performance Measures

 Clean and maintain all storm water collection systems including; storm lines, culverts, ditches, swales, detention and water quality facilities, catch basins and manholes.

Effectiveness Measures

- Regraded 370 linear feet of drainage ditch located north of East Virginia Street, west of 15th Avenue.
- Moved / replaced three (3) catch basins to the curb side locations.
- · Cleaned storm collection lines to increase flow capacities.
- Cleaned Catch basins to increase capacities.

Storm Water SDC Fund

Summary

The Storm Water System Development Fund receives revenues from Storm Water System Development Charges (SDC), as outlined in Chapter 13.12 of the Stayton Municipal Code. Developers pay a Storm Water SDC based on the adopted Storm Water System Master Plan.

Highlights

The City collected \$18,788 from Storm Water SDCs.

Changes from the previous year

- An increase of 517 % (\$15,154) from Storm Water SDCs collected for the 2014-2015 budget year.
- The administrative fee portion of the SDC is received directly to the General Fund, the transfer to the General Fund is eliminated

Public Works Administration Internal Service Fund

Summary

The Public Works Administration Fund receives funding from the Water, Sewer, and Street funds to cover administrative costs for the management of the entire Public Works Department. Administration duties include building permits, contracts, master planning, pavement management, development review and inspection, council staff reports, engineering services, and general administration of the water, sewer, and street utilities.

Highlights

- During the 2015 fiscal year the Public Works Administration hired a new Senior Engineering Technician.
- Reviewed Development Applications, Right of Way Permits, construction plans, and Building Permits.
- The Public Works staff designed and prepared construction plans for two new water lines, the storm water drainage ditch regrading, the Fern Ridge Lift Station Removal and Sanitary Sewer Construction project and the Western Avenue Overlay Project and the 2016 Street Maintenance Project.
- Updated City of Stayton Design Standards and Construction Specifications.
- Crafted the Emergency Spill Incident Management Plan.
- Applied for and was awarded the grant from the Oregon Parks and Recreation District for the replacement of the Pioneer Park Pedestrian Bridge.

Changes from previous year

- Eliminate Engineering Technician for 2016-2017 budget year for reevaluation of Department needs. This position may be reintroduced in the future.
- Add Temporary Employee to assist with Inspections of City Projects during construction season.

Performance Measures

- Manage Intake and issuance of all Building Permits.
- Manage Intake and issuance of all Right of Way Permit applications.
- Manage Department and project budgets.

Effectiveness Measures

- Processed 57 Building Permits.
- Processed 47 Right of Way Permits.
- Administered 9 capitol and maintenance contracts, of which 89% were completed timely.

Facilities Fund

Summary

This fund generally was created to fund land purchases for City facilities and to maintain city facilities.

Highlights

- Funding for a needs assessment for building space for City administration, police, planning, and public works administration staffing
- · Funding for improvements to Jordan Bridge

Changes from previous year

- Rent is charged to police and City Administration based on their square footage of occupied space at the rate of \$0.65 per foot per month
- An allocation of personnel costs associated with staffing to support building oversight of existing facilities is recovered from Water, Wastewater, Library and Pool
- A long-range plan will evolve with the completion of the needs assessment to fund adequate facilities to meet the present and future needs of the organization

Vehicle Replacement Fund

Summary

The Vehicle Replacement Fund provides funds to replace water, sewer, street, parks, and police department and other equipment used by the City on an established life-cycle basis. Basing equipment replacement on a regular basis eliminates the financial spike that occurs from attempting to secure funding at the very end of the life-cycle.

Highlights

Recources

- The fund balance exceeds \$1.0 million in fiscal year 2015-16 and FY 2016-17
- The fund loaned the Storm Water Fund \$230,000 (previously the loan was planned to come from the Sewer SDC's, however, the solvency of the Vehicle Fund is much stronger than the Sewer SDCs Fund

Changes from previous year

- Transfers from funds have been suspended pending a detail review of the vehicle replacement schedules and necessary funding
- Loan payments from the Storm Water Fund begin

Five-Year Financial Forecasts

Major Funds

Summary

Five-year financial forecasts for the City's major funds are presented below.

- General Fund
- Street Fund
- Water Fund
- Sanitary Sewer Fund
- Stormwater Fund

These forecasts are the City's initial efforts to perform long-range operational and financial planning. As such, they present information, including assumptions related to anticipated rate increases, potential borrowing, and capital improvements, that have not yet been approved by the City Council.

The financial schedules will be updated to reflect changes in assumptions, and other key information as it becomes available.

In addition to the financial schedules, minimum fund balance analysis, in relation to the recently adopted comprehensive fiscal policies, has been prepared. When the projected fund balance falls below the minimum, rate adjustments and or borrowing for capital projects have been provided. Projected debt coverage has also been prepared to demonstrate compliance with existing and anticipated debt covenants.

Assumptions:

- All funds
 - Growth 0.5% annuallyCPI 1.5% annually
 - Expenditures
 - Wages 2.0%
 - Health insurance 5.0%
 - Retirement 3.0%
 - Other personnel costs 2.0%
 - Materials and services 2.0%
 - Capital outlay 2.0%
 - Transfers 2.0%
 - Debt issues
 - 20-year maturity, issued mid-year
 - 4.0% interest rate

Assumptions relevant to individual funds are addressed with the funds financial forecasts.

General Fund

Forecasts for the General Fund show the ability to sustain current service levels during the planning period assuming there are not significant changes to inflation, labor costs, or revenue. Assumptions used, specific to the General Fund include:

• Revenue

Conoral Fund

- Property taxes annual increase of 3.2%
- Other revenue 0.0% to 3.0% annual increases
- Expenditures
 - Departmental spending is projected to be 97.0% of the adopted 2016-17 fiscal year budget in 2016-17.
 - Outsourced human resources and information technology services 5.0%

The Parks costs shown in fiscal 2015-16 are accounted for in a separate fund beginning in fiscal year 2016-17.

Street Fund

Forecasts for the Street Fund show the ability to sustain current service levels during the planning period assuming there are not significant changes to inflation, labor costs, or revenue. Having said this, the current service level has been the subject of considerable discussion, as the City's pavement condition continues to decline. A separate financial analysis is needed in the near term to project the costs to address deferred maintenance and provide the desired level of street maintenance. Assumptions used, specific to the Street Fund include:

Revenue

- Street fee 2.0% annual increase (beginning fiscal year 2017-18)
- Other revenue 1.0% annual increases

Expenditures

- Departmental spending is projected to be 100.0% of the adopted 2016-17 fiscal year budget in 2016-17.
- Capital outlay is per preliminary capital improvement schedule through fiscal year 2020-21
 - Capital outlay for fiscal year 2021-22 is the average of the previous four years.

Water Fund

Forecasts for the Water Fund show the need to raise rates and issue debt to sustain current service levels, including investment in capital, during the planning period. A refined financial analysis is necessary in the near term to project the costs to address operating and capital requirements to ensure rates are adjusted equitably at the earliest time to smooth out future anticipated increases. Assumptions used, specific to the Water Fund include:

- Revenue
 - Water rates 4.0% annual increase
 - Other revenue 0.0% 1.5% annual increases
- Expenditures
 - Departmental spending is projected to be 98.0% of the adopted 2016-17 fiscal year budget in 2016-17.
 - Capital outlay is per preliminary capital improvement schedule through fiscal year
 2020-21
 - Capital outlay for fiscal year 2021-22 is the average of the previous three years.
 - Operating costs for capital outlay items are not anticipated to vary materially as the items replace aging infrastructure
- Debt proceeds are anticipated to be needed to fund major capital projects

Capital Improvement Plan

Major Infrastructure Funds

Summary

The following schedules reflect the City's initial effort to schedule major capital improvement projects. The amounts provided are preliminary and do not reflect engineering assessments or estimates. Additionally, the amount of capital investment included in the five-year financial forecasts above reflect replacement of existing capital equipment on approved schedules, such as the City's police vehicles being replaced at the rate of one per year, and technology being replaced on a four-five year cycle.

The operating costs associated with the following capital investment has not been determined, however, per review of the items operating costs are not expected to increase above the amount presently incurred as the items are replacement in nature, or if growth, operating costs for growth are built in to the financial projections.

Water System

| 2016 -2017 | Shaff Road 16-inch waterline construction - \$240,000 |
|------------|---|
| 2017 -2018 | Kathy Street: East 6 th Ave. to 850 Kathy Ave8 "water line - \$180,000 |
| 2018-2019 | Gardner Ave Ida to Maple- 8" water line- \$130,00 |
| 2019- 2020 | 2 nd AveBurnett to Virginia, Hollister to Fir St \$125,000 |
| 2020- 2021 | Ida Street 10- inch- Evergreen to First- \$242,000 |

Water Treatment Plant

| 2016- 2017 | Contact Time System Design - \$100,000 |
|------------|---|
| 2017- 2018 | Clear Water Tank Construction – \$1,000,000 |
| 2018- 2019 | Automation of Valve on Weir Box - \$25,000 |
| 2019- 2020 | Automation of valve on Head Gate - \$40,000 |
| 2020- 2021 | Alternate Water Supply - \$150,000 |

Sanitary Sewer System

| 2016- 2017 | Force Main and paving Jetters Way - \$680,000 |
|------------|--|
| 2016- 2017 | Mill Creek Pump #3- \$100,000 |
| 2016- 2017 | Integration for Mill Creek 3 rd Pump – included above |
| 2016- 2017 | Telemetry for LS (Wilco, Gardner, Industrial) - \$32,000 |
| 2017- 2018 | Wilco Pump Station- Submersible Lift Stations- \$100,000 |
| 2018- 2019 | Gardner Lift Station Removal- \$532,000 |
| 2019- 2020 | Ida Street – Trunk Line Replacement-Jetters Way – Noble ST \$250,000 |
| 2020-2021 | Ida Street Trunk Line Replacement-Noble Street to King Ave \$250,000 |

Wastewater Treatment Plant

| 2016-2017 | Replace PD blower with Turbo – \$230,000 |
|-----------|---|
| 2017-2018 | Enclose cooling tower for odor control - \$364,000 |
| 2018-2019 | Dust Control/loading system for dried solids- \$250,000 |
| 2019-2020 | Discharge Hopper/Cooling Screw Replacement - \$85,000 |
| 2020-2021 | Odor control for Dryer Bldg. – \$1,000,000 |

Stormwater System

| 2016 –2017 | Water Quality Manholes, \$150,000 |
|-------------|---|
| 2017 -2018 | Regional Detention Facility \$ 1,500,000 |
| 2018 - 2019 | First Avenue Storm Pipe- Florence to Creek - \$75,000 |
| 2019 - 2020 | Industrial Ponds Cleanout w/ Hydroseed - \$57,600 |
| 2020 -2021 | Hollister/ Pine Storm Line Replacement- \$200,000 |

Street System

| 2016- 2017 | Marion Street: 1 st Street to 7 th Street - \$235,000 |
|------------|---|
| 2017- 2018 | Regis Avenue: 1 st to Evergreen Street- \$240,000 |
| 2018- 2019 | Regis Avenue: Evergreen Street to Gardner- \$210,000 |
| 2019- 2020 | Westown: West Brett to Shaff- \$216,000 |
| 2020- 2021 | Ida Street: 1 st to Evergreen - \$225,000 |

Fiscal Policies

Note: The proposed budget was prepared utilizing the fiscal policies that follow, with minor amendments, prior to City Council adoption of the fiscal policies September 19, 2016.

Purpose

The City of Stayton is committed to responsible fiscal management through financial integrity, prudent stewardship of public assets, planning, accountability and full disclosure. The broad purpose of the Fiscal Policies is to enable the City to achieve and maintain a long-term stable and positive financial condition. These policies are adopted by the City Council as the basic framework for overall financial management of the City, to guide day-to-day and long-range fiscal planning and decision making, and to achieve the following general financial goals:

- 1. Provide an adequate financial base to sustain the desired level of municipal services to maintain the social wellbeing and physical conditions of the City.
- 2. Deliver cost effective and efficient services to citizens.
- 3. Provide and maintain essential public facilities, utilities, and capital equipment.
- Protect and enhance the City's credit rating so as to obtain the lowest cost of borrowing and assure taxpayers and the financial community that the City is well managed and financially sound.
- 5. Provide the financial stability needed to navigate through economic downturns, adjust to changes in the service requirements of the community and respond to other changes as they affect the City's residents and businesses.
- 6. Adhere to the highest standards of financial management and reporting practices as set by the Government Finance Officers Association, the Governmental Accounting Standards Board and other professional standards.
- 7. Fully comply with finance related legal mandates, laws and regulations.

To achieve these goals, fiscal policies generally cover areas of revenue management, operating and capital budgeting, financial planning and forecasting, investment and asset management, debt management, pension funding, accounting and financial reporting, reserves and internal controls. These policies are reviewed annually by management, the Finance Committee, and City Council and amended as necessary, as part of the budget process.

Policies are addressed in ten areas:

- **Revenue**, which deals with taxes, user fees and other revenues by which the city generates income to fund programs and services.
- Operating expenditures, which relates to budgeting guidelines.
- **Expenditure control,** which addresses the City's efforts to ensure spending is consistent with the City's fiscal plans.

- Capital equipment and improvements, which relates to establishing a 5-year capital
 equipment and improvement plans for all major equipment and infrastructure systems
 provided and maintained by the city.
- Accounting and financial reporting, which relates to accounting and reporting financial transactions and preparing financial reports.
- Financial planning, addresses longer term financial forecasting to help inform decisions.
- **Debt,** which addresses long-term financing of the city's capital needs and maintaining its bond rating.
- Pension funding, addresses the funding policies of the City's pension obligations.
- Reserves, establishes minimum working capital balances, required reserves and operating contingency as needed for routine cash flow and responding to unexpected expenditures or increases in service delivery costs.
- Management of fiscal policy, sets forth the administration of fiscal policies on a continuing basis.

1 Revenue Policies

- 1.1. The City will strive for and maintain diversified and stable revenue sources to prevent undue or unbalanced reliance on any one source of funds. Diversified revenue sources will also reduce risk to the City from short-term fluctuations in any one revenue source.
- 1.2. Significant one-time and or temporary revenue sources will not be used to fund continuing programs and services, but rather to fund one-time expenditures or fund reserves.
- 1.3. The maximum allowable system development charges (SDCs), for each of the public infrastructure systems the City operates and is allowed by state law to impose, shall be determined on a periodic basis (approximately each five years).
 - 1.3.1. The Council will determine what amount of SDCs to impose.
- 1.4. The City will use users' charges in lieu of property taxes and subsidies from other non-obligated (i.e., generally available) City funds, for services that can be identified and where costs are directly related to the level of service provided.
 - 1.4.1. Charges for providing utility services shall be sufficient to finance all operating, capital outlay and debt service expenses of the City's utility funds, including operating contingency, reserve requirements, and capital replacement.

- Consideration will be given to return on investment and existing and or anticipated debt to insure debt coverage ratios are sufficient to meet or exceed requirements of lenders and rating agencies to maintain desired credit rating.
- 1.4.2. User charges shall be sufficient to finance all City costs to perform development review and building activities. User charges include, but are not limited to, land use, engineering inspection, building permit and building inspection fees.
- 1.4.3. Other reimbursable work performed by the City (full labor costs, overhead, contracted services, equipment and other indirect expenses) shall be billed at total actual or estimated total actual cost.
- 1.4.4.Charges for services shall accurately reflect the total actual or estimated total cost of providing a specific service. The cost of providing specific services shall be recalculated periodically, and the fee adjusted accordingly. The City shall maintain a current schedule of fees, indicating when the fees were last reviewed and/or recalculated.
- 1.5. The City shall pursue a timely and firm policy of collecting delinquent accounts. When necessary, discontinuing service, small claims court, collection agencies, foreclosure, liens and other methods of collection, such as imposing penalties, collection and late charges, may be used.
- 1.6. All potential grants that require matching funds, on-going resource requirements, or include new or additional continuing compliance requirements shall be evaluated and considered before submittal of the application. Grant applications will be approved as follows prior to their submittal: a. By the City Administrator for grants that require matching funds up to the amount of the City Administrator's spending authority, and b. By the City Council for grants with matching requirements above the City Administrator's spending authority. The City Council will be provided the evaluation with the request for their acceptance of the grant.
- 1.7. Revenues will be estimated realistically and prudently. Revenue of a volatile nature will be estimated conservatively. The City will estimate its revenues by an objective, analytical process using best practices as defined by the Government Finance Officers Association.

2 Operating Budget Policies

2.1 The City will prepare an annual budget guided by City Council goals and work plan to accomplish goals. Budget development will be coordinated with all departments and will incorporate Government Finance Officers Association (GFOA) recommendations relative to budgeting for results and outcomes.

- 2.1.1 The amount of funding available will be determined for each fund. The budget will be built on expected revenues. This includes base revenues, any new revenue sources, and the potential use of existing resources.
- 2.1.2 Conduct analysis to determine what strategies, programs, and activities will best achieve desired results.
- 2.1.3 Budget available dollars to the most significant programs and activities. The objective is to maximize the benefit of the available resources.
- 2.1.4 The City shall maintain an automated accounting system to monitor expenditures and revenues, relative to budget, on a monthly basis, with a thorough analysis and adjustment (if required) no less than quarterly.
- 2.2 All budgetary procedures will conform to existing state regulations. Oregon budget law requires each local government to prepare a balanced budget and Oregon Administrative Rules state: 1) the budget must be constructed in such a manner that the total resources in a fund equal the total of expenditures and requirements for that fund, and 2) the total of all resources of the entity must equal the total of all expenditures and all requirements for the entity.
- 2.3 The budget process will be coordinated so that major policy issues and department goals and objectives are identified and incorporated into the budget.
- 2.4 The cost allocation plan, previously developed, will be reviewed and updated annually and serve as the basis for distributing general government and internal service costs to other funds and capital projects.
- 2.5 The City Council shall adopt the budget at the fund, departmental or program level as a total dollar amount for all appropriations except contingency, unappropriated ending fund balance and reserves, which shall be stated separately.
- 2.6 Long-term debt or bond financing may be used for the acquisition of land, capital improvements, vehicles, and equipment with a cost greater than \$100,000, if current and or existing resources are insufficient. Long-term debt or bond financing shall not be used to finance current operating expenditures.
- 2.7 Every City fund, department, program or activity shall start each year's budget cycle with no predetermined appropriation amount. Budget appropriation decisions and the allocation of resources shall be based on direction provided by the City Council and implementation of that direction by the City Administrator.
- 2.8 The City will submit the Adopted Budget Document to the Government Finance Officer's Association (GFOA) to obtain the Award for Distinguished Budget Presentation.

2.9 A budget calendar will be prepared detailing the key elements in the development of the budget. (Please see exhibit 1).

3 Expenditure Control Policies

- 3.1 Expenditures will be controlled through appropriate internal controls and procedures. Management must ensure expenditures comply with the legally adopted budget. Each Department or Division Manager or Director will be responsible for the administration of his/her department/program budget. This includes accomplishing the goals and objectives incorporated into the budget and monitoring each department/division budget for compliance with spending limitations.
- 3.2 The City Administrator is to administer budgetary expenditure control at the appropriation level. Any increase in a budget appropriation requires City Council approval.
- 3.3 All purchases of goods and services must comply with the City's Purchasing Policies, guidelines and procedures and with State laws and regulations.
- 3.4 All compensation planning and collective bargaining will include analyses of total cost of compensation, which includes analysis of salary increases, health benefits, pension contributions, and other fringe benefits. City management will only propose operating personnel costs that can be supported by continuing operating revenues.
- 3.5 City staff shall make every effort to control expenditures to ensure City services and programs provided to its citizens and taxpayers are cost effective and efficient. Expenditures that will reduce future costs will be encouraged.

4 Capital Improvement Policies

4.1 Annually, the City will approve a 5-year Capital Improvement Plan (CIP), congruent with the adoption of its annual budget. The CIP shall provide details on each capital project: its estimated costs, sources of financing and a description, including a statement identifying: (a) the needs, conditions and circumstances that have caused the project's creation and (b) the expected results if the project is approved and implemented.

5 Accounting and Financial Reporting Policies

5.1 The City shall establish and maintain its accounting systems according to generally accepted accounting practices and shall adhere to generally accepted accounting principles and standards promulgated by the Government Finance Officers Association (GFOA) and Government Accounting Standards Board (GASB).

- 5.2 An annual audit shall be performed by an independent public accounting firm, which will issue an opinion on the annual financial statements, along with a management letter identifying areas needing improvement, if necessary.
- 5.3 Full disclosure shall be provided in the financial statements and bond representations.
 - 5.3.1 Upon request, all departments will provide notice of all significant events and financial and related matters to the Finance Director for the City's annual disclosures to the municipal markets as required by SEC Regulation 15-C-2-12. Full disclosure will be provided in the financial statements and bond representations. Significant events include delinquencies and defaults related to the City's bonds, adverse tax opinions or events affecting the tax exempt status of bonds, the release, substitutions or sale of property securing repayment of bonds and other events having a significant impact on the City's finances and outstanding bonds. The Finance Director will notify all Nationally Recognized Municipal Securities Information Repositories of these significant events.
 - 5.3.2 The City's asset capitalization policy is to capitalize and depreciate assets greater than \$10,000 with a useful life beyond one year. Capital assets costing less than \$10,000 or having a useful life of one year or less will be treated as operating expenditures.
- 5.4 Up-to-date accounting and budgeting information is available online to all management and authorized support staff. Quarterly actual-to-budget reports showing the current status of revenues and expenditures shall be prepared and distributed to appropriate legislative, staff and management personnel in a timely manner and made available for public inspection.

6 Financial Planning Policies

- 6.1 The Finance Department, collaborating with other departments, will prepare a long-term financial plan for each fund to promote responsible planning for the use of resources. The long-term financial plans will include projected revenues, expenditures and reserve balances for the next five years for all funds, except the water, wastewater and stormwater funds, which shall include twenty-year financial plans.
- 6.2 The City's financial plans should be strategic, reflecting the City Council and community priorities for service while providing resources that fund desired service levels.
- 6.3 Long-term projections of revenues and expenditures will be based upon disclosed assumptions, and prepared consistent with best practices established by the Government Finance Officers Association.
- 6.4 The long-term financial plans will be integral to the development of the annual budget.

7 Debt Policy

- 7.1 The City may use debt proceeds to finance costs associated with capital infrastructure, equipment, vehicles and other purposes that provide long-term benefits to the community, i.e., benefits that extend more than one year.
- 7.2 Capital projects financed through the issuance of bonds shall not be financed for a period which (a) exceeds the expected useful life of the project or (b) is less than five years.
- 7.3 Financing for non-capital purposes shall not extend beyond the amortization period available for the respective type of obligation, e.g., retirement unfunded liabilities include an amortization period of twenty-five years.
- 7.4 The Finance Director will structure all debt issuances and oversee the on-going management of all City debt. Debt includes general obligation bonds, lease purchase obligations, revenue bonds, special assessment obligations, promissory notes, equipment financing agreements and any other contractual arrangements that obligate the City to make future principal and interest payments.
- 7.5 No debt shall be issued for which the City has not identified specific revenue sources sufficient for repayment. Such revenue sources can include internal sources, such as charges to personnel costs, that are transferred to a debt service fund for debt repayment. The Finance Director shall prepare an analysis of the source of repayment prior to issuance of any debt.
- 7.6 The City will not use long-term debt to fund current operations, to balance the budget or to fund projects that can be funded from current resources, unless the use of debt is otherwise determined to be in the best interest of the City.
- 7.7 The City may utilize short-term debt or inter-fund loans as permitted, to cover temporary cash flow deficiencies due to timing of cash flows, such as may result from delay in receipting grant proceeds or other revenues and delay in issuance of long-term debt.
- 7.8 When issuing long-term debt, the City will ensure that the debt is soundly financed by:
 - 7.8.1 Incurring debt only when necessary for capital improvements too large to be financed from current available resources.
 - 7.8.2 Insuring that capital projects financed through long-term debt shall be financed for a period not to exceed the useful life of the project.

- 7.8.3 Determining that the benefits of the project financed exceed the cost of financing including interest costs.
- 7.8.4 Analyzing the source of repayment, debt coverage ratios and the impact of debt service on annual fixed costs prior to issuance of long-term debt.
- 7.9 All bond issuances, promissory notes, and capital leases will be authorized by resolution of the City Council.
- 7.10 The City shall maintain its bond rating at the highest level fiscally prudent, so that future borrowing costs are minimized and access to the credit market is preserved.

8 Pension Funding Policies

8.1 The City participates in two separate retirement programs: The Police Department participates in the State of Oregon Public Employees Retirement System (PERS) and is a member of the State and Local Government Rate Pool. All other eligible City employees participate in a Defined Benefit Plan.

The City will fund its required pension contributions to each plan timely.

9 Reserve Policies

- 9.1 The City shall maintain adequate working capital reserves in all funds.
 - 9.1.1 The general fund shall maintain sufficient working capital to allow the City to adequately fund operations until property taxes are received in November of each year, without borrowing.
 - 9.1.2 The City's utility funds shall maintain, at a minimum, a working capital balance sufficient for sixty days operating expenses, together with an adequate emergency repair reserve and required debt service reserves.
 - 9.1.3 The City's internal service funds shall maintain, at a minimum, a working capital balance sufficient for thirty days operating expenses and any required debt service reserves.
 - 9.1.4 The City's debt service funds shall maintain adequate working capital to pay required debt service without borrowing and fund required debt service reserves.
 - 9.1.5 The City's other operating funds shall maintain a minimum working capital balance sufficient for sixty days operating expenses and any required debt service reserves.

- 9.1.6 The City shall establish a contingency budget to provide for unanticipated expenditures of a nonrecurring nature. The contingency shall be a minimum of five percent (5%) of a fund's operating and capital expenditure estimates for the fiscal year. The budgeted contingency does not apply to debt service, internal service, trust and agency, capital projects, serial levy, temporary or certain special purpose funds.
- 9.2 The City may use reserves on a one-time or temporary basis for purposes described above. In the event that reserve funds are presently or decrease to levels below the levels desired by this policy, City management will develop a plan to restore reserves to the desired levels.

10 Management of Fiscal Policy

- 10.1 Fiscal polices and changes in policies shall be approved by the City Council and adopted by resolution after a public hearing is held (the approval may be inclusive of the annual budget adoption process and the associated resolutions to that process).
 - 10.1.1 The City Administrator or designee shall prepare a report explaining the substantive impact of all recommendations and their impact on the City's operations, service levels and/or finances.
 - 10.1.2 The Audit Committee shall review the City's fiscal policies annually.
- 10.2 The City Administrator shall implement fiscal policies and monitor compliance.
 - 10.2.1 If the City Administrator discovers a material deviation from policy, he/she shall report it in writing to the City Council in a timely manner.
 - 10.2.2 As a part of the City's annual budget document, the City Administrator's budget message shall identify: (a) all major changes in policy since the previous budget year and (b) any material variations from policy in the ensuing year's budget.

Definition of Terms

Balanced Budget – all budgets in Oregon are required to be balanced. Budget resources are equal to budget requirements. Resources include beginning balance, revenue, internal transfers, debt proceeds, while requirements include expenditures such as payments for goods and services, debt service, and other obligations, and reserves.

Budget Committee – is a committee consisting of the mayor and six city councilors and an equal number of citizen members appointed by the city council.

Government Finance Officers Association (GFOA) — is the national finance officers organization whose purpose is to enhance and promote the professional management of governments for the public benefit by identifying and developing financial policies and best practices and promoting their use through education, training, facilitation of member networking, and leadership.

Category level – for budget control purposes, categories include personal services, materials and services, capital outlay, debt service, transfers, contingency, reserves and unappropriated.

Program level – for budget control purposes, programs may include library services, community services, administration, finance, human resources, etc.

Divisional level – for budget control purposes, divisional level would include water, street, storm water, and wastewater divisions within the public works department. Other divisions may include the police field services, police administration, and police support services within the police department.

Capital Improvement Plan (CIP) – The CIP is a schedule of capital projects including estimated cost and timing. There is a separate CIP for each major infrastructure system in the City, e.g., water, streets, sidewalks, storm water, wastewater, information technology, City facilities and vehicles.

Debt Coverage Ratio (DCR) – represents the ratio of "net revenues" available to pay scheduled debt service. A ratio of 1.0 reflects "net revenues" equal to scheduled debt service. A ratio greater than 1.0 reflects "net revenues" in excess of scheduled debt services and a ratio less than 1.0 indicates "net revenue" is less than scheduled debt service.

Oregon Revised Statutes (ORS) – Oregon's compilation of state laws including rules of civil procedure.

Exhibit 1 Budget Calendar

| Description | Parties | Suggested Date | Latest Date |
|--|--|---|---|
| Council Goal Setting | Mayor, Council, City Administrator, dept heads | Dec. | End of Jan |
| Update CIP | Dept heads | End of Jan | End of Feb |
| Estimate current year-end revenue and expenditures (ORS 294.361 and 294.352) | Dept heads | End of Jan | Mid-Feb |
| Review December financials, preliminary year-end estimates, five-year financial projections and budget process with Budget Committee | Dept heads | End of Feb | Mid-Mar |
| Requested budget prepared and provided to finance | Dept heads | Mid- Mar | March 31 |
| Updates to five-year financial plan, e.g., staffing and other assumptions provided to finance director | Dept heads | Mid-Mar | March 31 |
| Dept meetings with City Administrator and Finance Director | Dept heads, staff and City Administrator | Mid- to end of Mar | Mid- April |
| Budget narratives completed | Dept heads | Early April | Late April |
| Update year-end revenue and expenditure estimates | Dept heads | Late March | Mid- April |
| Publish "Notice of Budget Committee Meeting" (ORS 294.401) | Finance Dir | Xx days before meeting | Xx days before meeting |
| Publish "Second Notice of Budget Committee Meeting" (ORS 294.401) | Finance Dir | Xx days before meeting | Xx days before meeting |
| Provide Proposed Budget (ORS 294.396) and Five-Year Financial Projections to Budget Committee | Finance Dir | End of April | Mid-May |
| First Budget Committee meeting (ORS 294.401) | Budget Committee, City Administrator and dept heads | 1 st Council meeting in May | 2 nd Council meeting in May |
| Additional Budget Committee meetings (ORS 294.406) | Budget Committee, City Administrator and dept heads | Week following 1st Council meeting in May | Week following 2 nd Council meeting in May |
| Budget Committee approves budget (ORS 294.406) | Budget Committee | Mid-May | End of May |
| Publish "Notice of Budget Hearing" (ORS 294.413, 416, 418) | Finance Dir | Xx days before meeting | Xx days before meeting |
| City Council holds public hearing; adopts budget; levies taxes (ORS 294.430, 435) | City Council | 1 st Council meeting in June | June 30 |
| Adopted Budget goes into effect | City-wide | July 1 | July 1 |
| Adopted Budget submitted to County Assessor and Department of Revenue (ORS 294.555) | Finance Dir | July 1 | July 15 |

Glossary

Actual

Actual, as used in the fund summaries, revenue summaries, and department and division summaries within the budget document, represents the actual costs results of operations. This category is presented on a budgetary basis, and thus excludes depreciation and amortization and includes principal payments on debt.

Ad Valorem Tax

A tax based on the assessed value of a property.

Adopted Budget

Adopted, as used in the fund summaries and department and division summaries within the budget document, represents the final budget *adopted* by City Council. The adopted budget becomes effective July 1. Subsequent to adoption; the City Council may make changes throughout the year.

Approved Budget

Approved, as used in the fund summaries, revenue summaries, represents the proposed budget with changes made by the budget committee, if any.

Appropriations

Legal authorization granted by the City Council to spend public funds. Appropriations within each program may not be exceeded.

Assessed Valuation

The value set on taxable property as a basis for levying property taxes. A tax initiative passed in 1997 that reduced AV below real market value and set a three percent maximum annual growth rate in the TAV (taxable assessed value), exclusive of certain improvements.

Assets

Resources having a monetary value and that are owned or held by an entity.

Audit

A report prepared by an external auditor. As a rule the audit shall contain a statement of the scope of the audit, explanatory comments concerning exceptions of the auditor as to the applicant on generally accepted auditing standards, explanatory comments concerning verification procedures, financial statements and schedules, and sometime statistical tables, supplemental comments and recommendations.

Base Budget

Cost of continuing the existing levels of service in the current budget year. Base budget is also referred to as a status quo budget.

Beginning Fund Balance

The beginning balance is the residual non-restricted funds brought forward from the previous financial year (ending balance).

Bond or Bond Issue

Bonds are debt instruments that require repayment of a specified principal amount on a certain date (maturity date), together with interest at a stated rate or according to a formula for determining the interest rate.

Bond Funds

Established to account for bond proceeds to be used only for approved bond projects.

Budget

A budget is a plan of financial operation embodying an estimate of proposed expenditures and the means of financing them. Used without any modifier, the term usually indicates a financial plan for a since fiscal year. In practice, the term budget is used in two ways. Sometimes it designates the financial plan presented for adoption and other times it designates the plan finally approved. It is usually necessary to specify whether the budget under consideration is preliminary and tentative, or whether the appropriating body has approved it.

Budget Calendar

A schedule of key dates followed by a government in the preparation and adoption of the budget.

Budget Committee

A group comprised of the elected officials plus an equal number of concerned citizens for the purpose of reviewing the proposed budget and recommending changes leading to an approved budget.

Budget Document

A written report that shows a government's comprehensive financial plan for a specified period, usually one year, that includes both the capital and the operating budgets.

Budget Message

Written explanation of the budget and the City's financial priorities for the next fiscal year; prepared by the city manager.

Budgetary Basis

Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP), with the exception that neither depreciation nor amortization are budgeted for proprietary funds, and bond principal in the enterprise funds is subject to appropriation.

Capital Budget

The City's budget for projects, major repairs, improvements and additions to the City's fixed assets (streets, sidewalks, roads, sewers, storm water, parks, and buildings).

Capital Improvement

A term defined in the ORS 310.410 (10) to include land, structures, facilities, machinery, equipment, or furnishings having a useful life of longer than one year.

Capital Improvement Project

Any project having assets of significant value and having a useful life of five years or more. Capital projects include the purchase of land, design, engineering and construction of buildings, and infrastructure items such as parks, streets, bridges, drainage, street lighting, water and sewer systems and master planning.

Capital Outlay

Includes the purchase of land, the purchase and/or construction of buildings, structures and facilities of all types, in addition to machinery and equipment. It includes expenditures that result in the acquisition or addition of a fixed asset or increase the capacity, efficiency, span of life, or economy of operating as an existing fixed asset. For an item to qualify as a capital outlay expenditure it must meet all of the following requirements: (1) have an estimated useful life of more than one year; (2) typically have a unit cost of \$5,000 or more; and (3) be a betterment or improvement. Replacement of a capital item is classified as capital outlay under the same code as the original purchase. Replacement or repair parts are classified under materials and services.

Capital Projects

Major repairs, improvements or additions to the City's fixed assets (streets, sidewalks, roads, sewers, storm water, parks, and buildings).

Cash Management

Management of cash necessary to pay for government services while investing temporary cash excesses in order to earn interest income. Cash management refers to the activities of forecasting inflows and outflows of cash, mobilizing cash to improve its availability for investment, establishing and maintaining banking relationships, and investing funds in order to achieve the highest return available for temporary cash balances.

Charges for Service

Includes a wide variety of fees charged for services provided to the public and other agencies.

Comprehensive Annual Financial Report

The annual audited results of the City's financial position and activity.

Comprehensive Plan

An official statement of the goals, objectives and physical plan for the development of the city. Contains a narrative of goals, objectives and policies that describe the desired form, nature and rate of city development.

Consumer Price Index

A statistical description of price levels provided by the U.S. Department of Labor. The index is used as a measure of the increase in the cost of living (i.e., economic inflation).

Contingency

A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise budgeted. Contingency may be appropriated for a specific purpose by city council upon the approval of a resolution. The City separates contingencies into those that are designated for specific purposes and undesignated.

Cost Allocation

Various administrative services including city management, finance, human resources, public works staffing and their related costs are allocated to the various funds that receive the benefit of these services via a cost allocation methodology.

Cost Center

An organizational budget/operating unit within each city division or department.

Debt Service

Interest and principal on outstanding bonds due and payable during the fiscal year.

Debt Limit

The City is limited to debt of 3.0% of the real market value of real estate in the City limits.

Debt Service Fund

A fund established to account for the accumulation of resources and for the payment of general long-term debt principle and interest that are not services by the Enterprise funds. It does not include contractual obligations accounted for in the individual funds.

Department

Led by a general manager, this combination of divisions of the City share specific and unique sets of goals and objectives (i.e., Police, Fire, Financial Services, Water Resources, etc.).

Division

A functional unit within a department consisting of one or more cost centers engaged in activities supporting the unit's mission and objectives.

Depreciation

Expiration in the service life of capital assets attributable to wear and tear, deterioration, action of physical elements, inadequacy, or obsolescence.

Designated Contingency

Amounts set aside for anticipated non-recurring cash flow needs. This includes items such as moving and remodeling, major building repairs, emergency management, and capital project or equipment purchases.

Elderly and Disabled

Provides funding for transportation alternatives for seniors and persons with disabilities. This includes taxi and bus services for employment, medical, shopping, and other necessary trips.

Employee Benefits

Contributions made by a government to meet commitments or obligations for employeerelated expenses. Included is this is the government's share of costs for social security and the various pension, medical and life insurance plans.

Encumbrance

Amount of money committed and set aside, but not yet expended, for the purchases of specific goods or services.

Ending Fund Balance

The residual, non-restricted funds that are spendable or available for appropriation at the end of the fiscal year.

Enterprise Funds

Established to account for operations, including debt service that are financed and operated similarly to private businesses – where the intent is the service is self-sufficient, with all costs supported predominantly by user charges.

Estimated

A projection of the revenue or expenditure, as appropriate, to be recognized during the current fiscal period.

Expenditures

Represents decreases in net financial resources. They include current operating expenses, which require the current or future use of net current assets, debt services, and capital outlays.

Fees

Charges for specific services levied by local government in connection with providing a service, permitting an activity, or imposing a fine or penalty.

Fiscal Management

A government's directive with respect to revenues, spending, reserves and debt management as these relate to governmental services, programs and capital investment. Financial policy provides an agreed upon set of principles for the planning and programming of governmental budgets and its funding.

Fiscal Year

A 12-month period designated as the operating year for accounting and budgeting purposes in an organization. The City of Florence's fiscal year is July 1 through June 30.

Five-Year Financial Plan

An estimation of revenues and expenses of the City's operations for the next five-year period.

Fixed Assets

Includes equipment, vehicles, furniture and fixtures, computer hardware and software with a cost basis in excess of \$5,000.

Franchise Fee

Charged to all utilities operating within the City and is a reimbursement to the general fund for the utility's use of City's right of ways.

Full-Time Equivalent

A calculation used to convert part-time hours to equivalent full-time positions. Full-time employee salaries are based on 2,080 hours per year. The fulltime equivalent of a part-time employee is calculated by dividing the number of hours budgeted by 2,080.

Fund

A fiscal and accounting entity with a self-balancing set of accounts. Records cash and other financial resources together with all related liabilities and residual equities, or

balances and changes therein. These are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Fund Balance

The balance of net financial resources that is spendable or available for appropriation.

General Fund

This is the primary operating fund of the City. It exists to account for the resources devoted to finance the services traditionally associated with local government.

General Long-term Debt

Represents debt payable that is not classified as a liability of a given fund or secured by a specific revenue source other than the general revenues or property taxes of the issuer. General Obligation (GO) bonds are secured by the full faith and credit of the issuer. GO bonds issued by local units of government are secured by a pledge of the issuer's property taxing power (secondary portion). Usually this is issued to pay for general capital improvements such as parks and City facilities.

Goal

The result or achievement toward which effort is directed; aim; end.

Grant

A contribution that is made by one government unit to another. The contribution is usually made to aid in the support of a specified function (i.e., library, transit, or capital projects).

Infrastructure

Public domain fixed assets such as roads, bridges, streets, sidewalks, and similar assets that are immovable.

Intergovernmental Revenues

Levied by one government, but shared on a predetermined basis with another government or class of governments.

Levy

Gross amount of property taxes imposed on taxable property. The net amount received by a government will be less than the gross levy as a result of delinquent or uncollectible payments or early payment discounts. Budgets are developed on the basis of the projected amount of property taxes receivable.

Line Item Budget

The traditional form of budget, where proposed appropriations are based on individual objects of expense within a department or program. Local Budget Law Oregon Revised Statues (ORS) dictates local budgeting practices. ORS Chapter 294 contains Local Budget Law provisions.

Local Improvement District

Consists of property owners desiring improvements to their property. Bonds are issued to finance these improvements, which are repaid by assessments on their property. Local Improvement District debt is paid for by a compulsory levy (special assessment) made against certain properties to defray all or part of the cost of a specific capital improvement or service deemed to benefit primarily those properties.

Local Option Levy

Under Measure 50, local governments and special districts were given the ability to ask voters for temporary authority to increase taxes through approval of a local option levy. The maximum length of time for a local option levy is 5 years, and up to 10 years, if the levy is for capital purposes. A local option levy must be approved by a majority of voters at a general election or an election with a 50 percent voter turnout.

Materials and Services

Expendable items purchased for delivery and city services. This classification includes supplies, repair and replacement parts, small tools, and maintenance and repair materials that are not of a capital nature.

Measure 5

In November 1990, State of Oregon voters passed a constitutional limit on property taxes. The law sets a maximum \$10 tax rate on individual properties for the aggregate of all non-education taxing jurisdictions. The maximum tax rate for education jurisdictions is limited to \$5.

Measure 50

A 1997 voter approved initiative which rolled back assessed values to 90 percent of their levels in fiscal year 1995-96 and limits future annual increases to three percent, except for major improvements. Tax rates are now fixed and not subject to change. Voters may approve local initiatives above the fixed rates provided a majority approves at either (1) a general election in an even numbered year; or (2) at any other election in which at least 50 percent of registered voters cast a ballot.

Mission

Defines the primary purpose of the City and is intended to guide all organizational decisions, policies and activities (internal and external) on a daily basis.

Non-Operating Budget

Part of the budget composed of the following items: Reserves, contingencies, capital projects, and debt service payments.

Objective

A target to be accomplished in specific, well defined and measurable terms, and that is achievable within a specific time frame.

Operating Budget

The plan for current expenditures and the proposed means of financing them. The annual operating budget is the primary means by which most of the financing, acquisition, spending, and service delivery activities of a government are controlled.

Operating Revenue

Funding received by the government as income to pay for ongoing operations. It includes such items as taxes, fees from specific services, interest earnings, and grant revenues. Operating revenues are used to pay for day-to-day services, capital outlay, and debt service.

Ordinance

A formal legislative decree enacted by the governing body of a municipality. If it is not in conflict with any higher form of law, such as a state statue or a constitutional provision, it has the full force and effect of the law within the boundaries of the municipality to which it applies.

Outstanding Debt

The balance due at any given time which resulted from the borrowing of money or from the purchase of goods and services.

Performance Measure

Data collected to determine how effective or efficient a program is in achieving its objectives.

Permanent Tax Rate

Under Measure 50, each school district, local government, and special district was assigned a permanent tax rate limit in fiscal year 1998. This permanent rate applies to property taxes for operations.

Personnel Services

The salaries and wages paid to employees, in addition to the City's contribution for fringe benefits such as retirement, social security, and health and workers' compensation insurance.

Property Tax

Based according to assessed value of property and is used as the source of monies to pay general obligation debt and to support the services provided by the City.

Project Manager

An individual that is responsible for budgeting and managing projects to their completion.

Proposed Budget

A financial document that combines operating, non-operating and resource estimates prepared by the Budget Officer, which is submitted to the public, budget committee and City Council for review and approval.

Resolution

A special or temporary order of a legislative body requiring city council action.

Resources

Includes revenue, inter-fund transfers, borrowing proceeds and beginning fund balance.

Retained Earnings

An equity account that reflects the accumulated earning of an enterprise or internal service fund.

Revenue

Funds received by the City from either tax or non-tax sources.

Revenue Bonds

Bonds payable from a specific source of revenue, which does not pledge the taxing authority of the issuer. Pledged revenues may be derived from operation of the financed project, grants, excise, or other specified non-property tax.

Special Assessment

A compulsory levy made against certain properties to defrayal part of the cost of a capital improvement or service deemed to be beneficial primarily to those properties. (Also see Local Improvement District)

Special Assessment Bond

A bond issue payable from the payments on special assessments imposed against properties that have been specially benefited by the construction of public improvements such as sidewalks, roads, or sewer systems.

Special Revenue Funds

A fund established to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Supplemental Budget

Appropriations established to meet needs not anticipated at the time the budget was originally adopted. A supplemental budget cannot increase the tax levy.

System Development Charges

Charges paid by developers and builders to fund expansion of infrastructure systems necessary due to increased usage. Such charges are collected for water, sewer, storm drains, streets, and parks and are paid by developers and builders as part of the permit process.

Taxes

Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits such as special assessments. Neither does the term include charges for services rendered only to those paying such charges, such as water service.

Tax Levy

The total amount of property taxes needed to pay for General Fund operations and for principal and interest on bonds.

Tax Rate

The amount of tax levied for each \$1,000 of assessed valuation.

Tax Revenue

Includes property taxes, hotel and motel room tax.

Tax Roll

The official list showing the amount of taxes levied against each property.

Transfers

Appropriation category used in the City's budget, which includes amounts distributed from one fund to pay for services provided by another fund. The general fund may also transfer funds to any other fund if desired by the City Council.

Trust Funds

A fund established to administer resources received and held by the City as the trustee or agent for others. Uses of these funds facilitate the discharge of responsibility placed upon the City by virtue of law or other similar authority.

Unappropriated Ending Fund Balance

An account which records a portion of the fund balance. It must be segregated for future use and is not available for current appropriation or expenditure.

Unreserved Fund Balance

The portion of a fund's balance that is not restricted for a specific purpose. It is available for general appropriation.

User Fees

The fee charged for services to the party or parties who directly benefits. They are also referred to as Charges for Service.
