

Early Literacy Activity #1

Make a space to snuggle together as you read.

When Baby feels safe and loved, learning happens more readily.

Make it comfortable: For infants, your arms are the most comfortable place they know! For older children, gather pillows, blankets, stuffed animals, whatever helps make the space cozy!

Dim the lights: Set the mood for relaxation and reading with natural or lower light.

Make space for materials: Create a special book nook or basket for your child to keep books handy.
