

Early Literacy Activity

Hum, Hum, Hum a Tune...

Try out new tunes, or hum familiar ones!

Good Vibrations!

Notice what humming feels like - in your ear, in your throat, in your nose - and imagine what this might feel like for Baby.

Talk about the different sensations with Baby as you hum together!

Mirror Baby

Hum together. Take turns or copy each other. Take cues from and mimic Baby, or see if Baby will mimic you!

Hum different tunes together... Why?

Humming provides sensory input for Baby as the rhythms and patterns of early language are explored through sound vibrations.

SING

Build a Reader Every Day: READ—WRITE—TALK—SING—PLAY
