# STAMPED PENCIL POUCH

Create your own stamp to design your own one-of-a-kind pencil pouch

Supplies:
- blank canvas pencil pouches
- craft foam with adhesive backing
- foam core or cork board
- acrylic or fabric paint
- foam brush
- pencil or pen

Instructions:

1. Double up the adhesive craft foam to make it thicker by sticking one piece onto another piece. (You could even triple it up if you want)

2. Draw desired shapes onto your craft foam. You may need to use a pen for it to show clearly.

3. Cut out the shape you just drew on your craft foam. Stick them onto a piece foam core. You can cut the foam core to suit the size of your stamp if you want.

4. Flatten out your pencil pouch, and test out your stamp(s) on some scrap paper before using on the cloth. Using the foam brush saturate your stamp with some paint, and stamp away!

5. Let it fully dry before stamping the other side.

6. Once both sides have dried, enjoy!
