

If I were mayor I would do a movie downtown. These movies would bring families closer together. Even though Sublimity has on in the park. I think it will be beneficial to bring more people to the community. We could have the canary and make it a home for the homeless where they can get on their feet to make a family.

the downtown stores supply the food, drinks and candy. This would bring people in the town and make more money for the downtown shops. The library volunteers can set up and take down. Some other events are leprechaun catching where the mayor and some other big people in the city wear green and give stamps to the people who can catch them. Whoever gets them first gets the grand Prize. I will make sure that their will be event to clean up the park so little kids dont get raised in a bad environment

The Library is very important to our community so if the library closes from not enough money we might lose a very important part of our community. So we have to raise the taxes to keep that part of our community alive. That also goes with the pool that just had a water problem. We should do fundraisers to help keep The fun parts of this town that brings little kids to be a part of this community.

We should use the cannery as a cool spot where we could have an arcade,go kart racing and so much more. Our town needs more for bringing people together. This in our community could help our businesses grow. If we consider this idea we could also use some of the money to support our library. We could add a lazy river, have karaoke night, And lazer tag would attract so many people to our community.

We should apply for a grant to get money to fix the potholes in the streats. If we fix the streets we can do more events on the streets like bike riding, tours around town and so much more. We should Have a Santa in town for Christmas for all the little kids. We should also have an easter bunny And so many more ideas. The police department should do rides to school for the kids and help make the kids excited and looking forward to the day. The Fire department should do the same thing in a smaller truck. As a child this would be something I can rember and brag about for my whole life. The importance of starting your day with something that brings you so much joy. I have done one of these and I got compliments and I felt special about my day. The police department has made the biggest impact on our community. All of our volunteers and business have also made a difference in our community. I love all of these people so much. I dont think I could live anywhere else, this town hase made the largest impact on my life.
