Jennifer:

Randy has confirmed that he would like to withdraw the tentative plat subdivision application but continue to proceed with the annexation application. As I mentioned to you yesterday, we wish to only obtain approval for the first phase of the subdivision at this time, and it appears as if the cleanest way to achieve that is to withdraw the tentative plat subdivision application and apply separately for tentative plat approval of phase 1 only.

The annexation application should still proceed forward on its current approval track, and we'll submit the revised tentative plat subdivision application later this month.

Please let me know if you need a formal letter requesting withdrawal, or if this e-mail is sufficient.

Thanks,
