Fund 10 - General Fund Program 40 - Non-Departmental

The Non-Departmental area of the General Fund budget accounts for a variety of expenses that tend to be common to the entire fund and many may not be easily identifiable in respect to any specific department. This is also the area of the General Fund budget where any funds set aside as unappropriated or for contingency purposes are reflected.

# **Administration**

The Administration Department represents the core function of the City organization. One distinct element of the Department is general administration which includes: oversight of City programs and departments, support of the City Council and various other City boards and committees, and general relations with the public, etc. The second element of the Department is the City's finance function, this consists of payroll & employee benefits, accounts payable, monitoring debt service, utility billing, and working relationships with the City's bank and auditors, etc.

City Hall staff includes Don Eubank, City Administrator; Christine Shaffer, Finance Director; Rebecca Petersen, Deputy City Recorder; and Jennie Trent, Associate Accountant. Staff also includes two clerical positions (funded fully from utility revenues); Sandra Goodell, Utility Billing Clerk and Elizabeth Baldwin, Receptionist/Cashier.

### **Alignment with Council Goals:**

# Council Goal #6: Efficient, Effective, Friendly, Transparent, Honest and Fair, City Government

- The City will be adding online bill payment this year, to make utility bill paying more modern and convenient.
- There is a citizen concern form available on the front counter, these concerns are followed up and tracked in the IWORQ software program to ensure all issues are resolved in a effective and fair manner.
- We have been working with Allison McKenzie, GROW North Santiam, to review City operations for better customer service, and a more efficient operation.

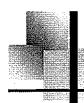

#### **General Fund Budget:**

With City revenues continuing to decline in a difficult economic situation, and expenses continuing to rise, it becomes more challenging each year to maintain the excellent services provided to the Citizens of Stayton. This year health insurance premiums increased eight (8) percent, we also saw increases in retirement costs, PERS increases are unknown at this time although we are setting aside reserves to help offset what is expected to be a large increase in rates next year. We are confident that we are presenting a fiscally responsible budget that shows a significant reduction without cutting any services, programs, and more importantly personnel. The City of Stayton is able to provide such outstanding services for the community because of our very dedicated staff.

# **Stayton Police Department**

The Stayton Police Department is a full-service, 24 hour a day law enforcement organization with 16 sworn, 3.5 civilian and up to 20 volunteers providing police services and records management to the cities of Stayton and Sublimity. The Department's number one goal is the preservation of life and property. In addition to general law enforcement services, programs include foot and bicycle patrols, crime prevention, traffic education/enforcement, drug investigations and other services as needed.

This past year we have been able to have a positive impact in the community in several different areas. For the 4<sup>th</sup> year in a row we hosted a barbeque dinner on National Night Out to meet with local citizens in our beautiful neighborhood parks. We continued to host our 27<sup>th</sup> annual underprivileged kids fishing derby.

We have provided Child Safety Seat installations to parents. We continue to provide alcohol and drug education through the MethBusters community group, Friends of the Family, OLCC, and Marion County Health Department. We hosted a new program for residents to turn in any old or expired prescription medications, this benefits everyone by keeping these from going into our water system and it also helps to keep unsafe medications away from children. Traffic enforcement and education will be increased to improve community safety especially for children going to and coming from school. To assist in this area, we will continue to enforce crosswalk pedestrian safety through a federal grant program.

In the area of investigations, we also continue to make great progress in fighting crime. We participate in several regional multi agency task forces for investigating child abuse, financial crimes, major crimes against persons, underage alcohol enforcement, seniors and disabilities investigations, organized crime and gang investigation, and major traffic crash investigations. Last year we responded to 5,383 calls for service, which is a reduced crime rate from previous years.

#### **Alignment with Council Goals:**

### Council Goal #4: Encourage Public Involvement in City Government

At the Police Department we currently have 8 volunteer Reserve Officers, which has doubled from
previous years. In lieu of a Police Cadet program we are working with the local Boy Scouts on
implementing a way for them to help the Police Department through volunteer opportunities such as
assisting with 4<sup>th</sup> of July and Summerfest events. The Police Records section has two volunteers
and regularly uses cooperative college work students who need internships.

### Council Goal #5: Enhance the Livability of Stayton

 The department works very hard at improving the Safety of the City which includes making sure our community is safe for citizens to enjoy through both enforcement and prevention.

# Council Goal #6: Efficient, Effective, Friendly, Transparent, Honest and Fair, City Government

 The Police Department continues to work at providing a customer oriented Police Department. There is a process for the citizens to provide feedback to the Department; comments are taken seriously and are followed up. The Department provides communication to the citizens through multiple media sources to ensure the community is aware of Policing issues.

#### **CAPITAL OUTLAY:**

For Capital Outlay we have included three ballistic vests at \$800 each. We have an ongoing Grant from 2005 that reimburses ½ the cost of ballistic vests to the City, these vests expire after five years. We have included \$3,000 for computer replacements and upgrades to continue our computer equipment replacement plan. Due to legislative requirements, we are required to install an audio video recording system in our interview room; the estimated cost for the equipment is \$3,500. The fire proof personnel file cabinet is overflowing and is no longer mechanically sound and it will be replaced for \$3,200.

# **Planning and Development Department**

#### The Planning and Development

**Department** administers State and City land use laws and codes. The Department supports and advises the City Council and Planning Commission regarding all planning and land use matters, as well as economic and community development activities.

The Department is staffed by the Planning and Development Director. This past year, the Department has also included an AmeriCorps participant who will continue for a short portion of the coming year. Staff responsibilities include attending Planning Commission and City Council meetings, providing customer service and assistance in interpreting Stayton's municipal codes, and processing a wide variety of different land use applications and actions. The Department also staffs ad hoc committees, such as the Comprehensive Plan Update Committee. The City Council has recently

appointed this committee to review and update the City's goals and policies for future development.

The Planning Department is responsible for management of the City's Geographic Information System, providing mapping products and technical assistance to the Public Works and Police Departments. FY 10-11 will include updating the Comprehensive Plan, continued implementation of the Downtown Revitalization Plan, and continuing the review of the Land Use and Development Code to assure that the City's regulations are appropriate.

# **Alignment with Council Goals:**

#### Council Goal #2: Downtown Revitalization

• The Department will continue to implement the Downtown Revitalization Plan.

# Council Goal #3: Support Economic Development Efforts in Stayton

- The Department has been inventorying available commercial and industrial property and maintains this information on the City's website.
- The Department works closely with the Stayton Sublimity Chamber of Commerce.
- The Department has been working on making sure that the City's Land Use Code and other development policies strike the balance between assuring that new development minimizes its impacts on the City with the ability for businesses to expand and prosper.
- The Department has submitted an application to the Oregon Department of Business Development for designation of the City's industrial area as an Enterprise Zone. If successful, this designation will provide a short-term property tax exemption to qualified businesses that make new investments that result in job growth.

#### Council Goal #4: Encourage Public Involvement in City Government

- The Department has expanded the information available on land use proceedings on the City's website and has a continual notification system to assure that members of the public are aware of Departmental activities.
- The AmeriCorps participant has been a public participation coordinator, administering a survey to the
  residents of the City, and promoting and coordinating opportunities for citizen involvement and volunteer
  assistance.
- The Department will be making a significant effort into the public participation aspects of updating the City's Comprehensive Plan to assure the local goals and policies reflect the aspirations of the citizens of Stayton.

### Council Goal #5: Enhance the Livability of Stayton

• The Department's overall aim in drafting of land use regulations, review of development proposals, and other activities is to create a desirable environment in which to work, live and play.

#### **PERSONNEL SERVICES:**

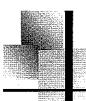

The 2010-11 budget reflects a small decrease in personnel costs, continuing to keep the position of the Assistant Planner unoccupied.

### **MATERIALS AND SERVICES:**

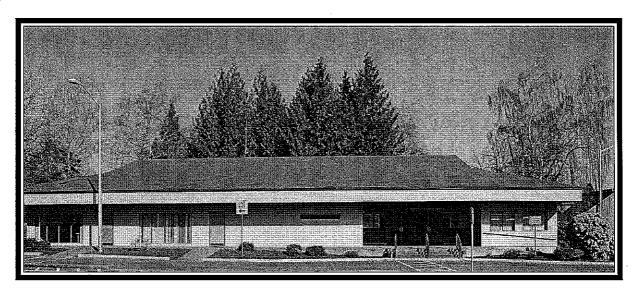

Funds under the computer line item have been decreased. The budget includes the final quarterly payment for the AmeriCorps participant's stipend, all of which had been in the 2009-2010 budget, but will be only 75% expended.

# **Stayton Community Center**

**The Community Center** is the official meeting place for the City Council and other City groups. The Center brings people together for social and civic functions. The Community Center is available for dances, weddings, receptions, parties, meetings and concerts as well as other events.

The Community Center has a total of 3,337 square feet available for events. The hall can be divided into two portions. The north end has 1,112 square feet available and the south end has 2,224 square feet available. There is a kitchen facility and restrooms also.

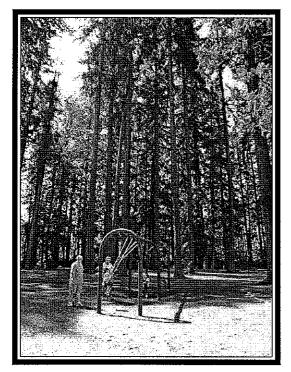

The City of Stayton has recently upgraded the sound system, window coverings and has also added a new hand washing sink in the kitchen. The Community Center has a regular cleaning schedule and the City performs maintenance as needed. The City of Stayton is looking at continual upgrade opportunities for the Community Center.

# **Parks Maintenance**

The Parks Maintenance fund provides maintenance of the City of Stayton's parks and open spaces. The City of Stayton owns and maintains pedestrian trails, mini-parks, neighborhood parks, community parks, and natural open spaces. The City maintains 12.7 acres of mini/neighborhood parks, 7.65 acres of community parks, and 106 acres of open space parks. The City's parks system is highly valued by residents and visitors because they help make Stayton a livable community.

# Alignment with Council Goals: Council Goal #5: Enhance the Livability of Stayton

- Improve the livability and quality of life for Stayton residents through the provision of excellent public facilities and public spaces.
- The City will serve as a catalyst to encourage the development of leisure time/recreation opportunities through partnerships with local organizations.

### Implementation Strategy:

- The Parks and Recreation Board reviewed Pioneer and Northslope parks in 2009-2010. In the next fiscal year, they will complete reviews of the other city parks and facilities. This will include a review of the Master Plan, identification of maintenance issues/ problems, setting priorities for maintenance activities, recommendation of improvements and development of a funding strategy for future improvements.
- Develop a list of volunteer opportunities in City parks.

### **PERSONNEL SERVICES:**

One full-time Park Maintenance Worker, and two Seasonal Maintenance Worker positions. The City also utilizes community service workers (assigned by Marion County Justice Court) and volunteers for litter patrols and special projects. The budget includes some flexible hours to deal with winter storm cleanup, special events and vacations.

#### **MATERIALS AND SERVICES:**

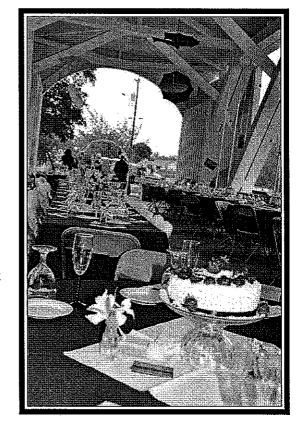

The majority of the materials and services expenses are routine expenses for electricity, insurance, vehicle operating / maintenance costs, Jordan Bridge maintenance, cleaning and painting touch-up, and uniforms, training and certification renewals the Parks Maintenance Worker.

Parks Maintenance includes general materials & supplies for all city parks including parts for equipment and structures, turf maintenance, irrigation systems, replacement of vandalized items, and Riverfront Park maintenance.

The Contracts and Services line item includes money for engineering and design services.

### **CAPITAL OUTLAY:**

Capital Outlay includes replacement equipment for Parks. No specific capital acquisitions are proposed for 2010-2011.

#### Fund 10 - General Fund Program 48 - Street Lights

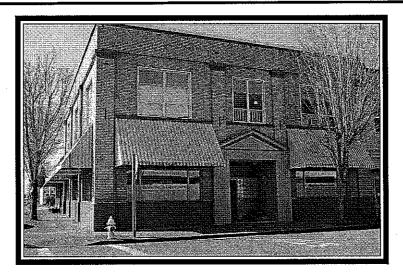

The Street Light budget provides funds for maintenance and power costs related to Stayton's numerous street lights. Pacific Power & Light maintains the street lights and the City pays a monthly fee for each street light, the amount of which is dependent on the type of street light installed. Although not implemented by recent City Councils, the Stayton Municipal Code does provide for a "Street Light Service Charge" designed to cover the cost of this function.

# **Public Works Administration**

The Public Works Administration Fund was established so all administrative expenses for the Water, Sewer, Street, Parks and Facilities are in the same fund. The PW Admin Fund pays for the administrative costs for the management of the entire Public Works Department. Administrative duties include building permits, contracts, master planning, development review and inspection, council staff reports, engineering services, and administration of the water, sewer, and street utilities.

#### **Alignment with Council Goals:**

### Council Goal #1: Improve Public Infrastructure

Continue to improve public infrastructure to meet the demands of a growing community.

#### Council Goal #5: Enhance the Livability of Stayton

 Improve the livability and quality of life for Stayton residents through the provision of excellent public facilities and public spaces.

### Implementation Strategy:

The Public Works Department administrative staff will focus on several major construction projects in FY 2010-2011.

**Wastewater Treatment Plant Improvements:** The City will begin the \$5.8+ million Phase 1 - Wastewater Treatment Facility (WWTF) improvement. This project includes 6 months of engineering design, bidding and the start of construction of a major renovation of the existing Wastewater Treatment Plant on Jetters Way.

### **Public Works Administration Budget**

The Public Works Administration staff includes the Public Works Director David Kinney, Sr. Engineering Technician Mike Brash, Public Works Administrative Assistant Alissa Angelo, and Permits Clerk Jennifer Jackson.

The City does receive savings by having a qualified inspector on staff. In the past, the City contracted with the City Engineer Ed Sigurdson or the larger engineering firms, such as Keller Associates or Black & Veatch, to perform this work. By utilizing in-house staff the City has reduced engineering consultant services expenses for the water projects, sewer projects and development inspections.

### **MATERIALS AND SERVICES:**

The Public Works Administration Fund covers the administrative expenses of the department. Materials and services include all costs related to the public works office at 311 Third Avenue including rent, utilities, telephones/alarms, building maintenance, computer maintenance and equipment leases (copier). The PW Admin Fund also pays for all personnel related expenses including advertising (recruitment), employee drug testing (random and employment related tests), and training/conferences for the office staff.

Fund 15 - Public Works Administration

# **Stayton Public Library**

**Stayton Public Library** is a modern, trend-setting, dynamic facility that is constantly changing to meet the needs of our customers. Whether its using the library to provide the latest best-seller or to use our up-to-date technology in computers and online access, our patrons appreciate this by consistently returning. We are pleased to be able to offer quality programming for families. The library is heavily used by the people of the city and surrounding areas, checking out over 133,000 items in 2009. Through our membership in the Chemeketa Cooperative Regional Library Service (CCRLS), we are able to access the collections of the other member libraries, increasing our offerings to our patrons. CCRLS is a valuable service to us, providing over \$140,000 worth of direct investment and services including computer equipment, online access, courier service and IT support.

### **Alignment with Council Goals:**

# Council Goal #4: Encourage Public Involvement in City Government

The Library has strong community involvement through volunteerism.

# Council Goal #5: Enhance the Livability of Stayton

• The Library provides quality leisure time activities and opportunities to increase knowledge and meet information needs for all ages.

### **REVENUES:**

CCRLS reimbursement will increase from \$49,725 to \$63,422.

We expect to see increased revenue from the meeting room fees due to increased promotion. Based on 2009-10 collections, this figure increases to \$4000.

Collections for non-resident fees are expected to increase to \$9500.

Fines and fees are expected to increase to \$15,000.

Library state aid: the Legislature decreased the amount that libraries receive per capita, and our share will be \$1346.

#### **PERSONNEL SERVICES:**

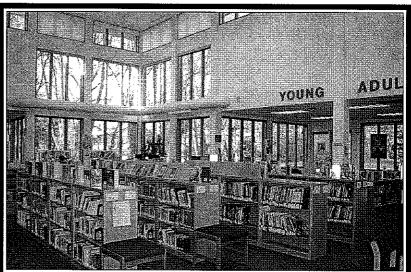

Library assistants fund is slightly higher due to hiring a library assistant at 32 hours, previously at 20 hours. The library aides line has been reduced accordingly.

#### **MATERIALS AND SERVICES:**

Electricity is increased to \$12,000.

Contract services-IT and custodial has been split into two lines 62010 and 62120, to reflect the expenses related to them.

Professional services (CCRLS) We will no longer be required to pay for routine mailings and supplies from CCRLS; they will absorb this cost as well as the OCLC costs related to adding materials to the catalog. Reduced from \$2900 to \$1000.

# Water Enterprise Fund

**The Water Enterprise Fund** provides funding for the treatment and delivery of clean water to the City's residents and customers.

The City of Stayton water system includes facilities to treat, store, pump and deliver excellent drinking water to our customers.

Raw water is delivered from the North Santiam River via the Reid Power Canal to the City's Water Treatment Facility on 1<sup>st</sup> Avenue.

The City treats the raw water at the plant using the city's slow sand filtration system. Once the water is treated, it is chlorinated and then delivered to residential, commercial, and industrial customers through 44.5 miles of water transmission and

distribution lines. The City stores water in the 5.0 million gallon reservoir on E. Pine Street. The reservoir and pump system pressurizes the water system and provides fire storage and an equivalent of three (3) days daily use

Last year the City produced 816.9 million gallons of water and delivered it to Stayton residents, businesses and industries. NORPAC Foods is the city's largest customer. They used 259 million gallons in 2009. During a peak summer day, the City of Stayton produces and delivers 3.98 million gallons of high quality drinking water to its customers.

As an enterprise fund, service revenues paid by customers must cover all costs of operating the City of Stayton water system including personnel, materials and services, capital outlay, debt service and major renovations and repairs to the water system.

#### Alignment with Council Goals:

# Council Goal #1: Improve Public Infrastructure

Continue to improve public infrastructure to meet the demands of a growing community.

#### Council Goal #5: Enhance the Livability of Stayton

 Improve the livability and quality of life for Stayton residents through the provision of excellent public facilities and public spaces.

#### Implementation Strategy:

The Water Enterprise Fund includes the completion of one major construction project in FY 2010-2011 and a number of on-going maintenance programs.

1. Water Treatment Plant Improvements. Emery & Sons Construction, Inc. will complete the \$3.6 million water treatment plant improvement project by September 1, 2010. Emery & Sons rebuilt Filter Bed #3, replaced all electrical panels, installed new energy efficient pumps, painted the interior and exterior of the chlorine contact clearwell, added an emergency generator to ensure water can be treated during major power outages and installed new electronic controls. In addition, the E. Pine Street Booster Pump Station was rehabilitated with new energy efficient variable speed pumps and a backup generator.

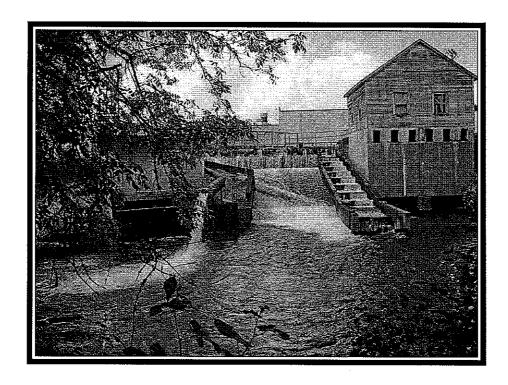

# **Water Enterprise Fund Continued**

### **Implementation Strategy continued:**

The City has two backup wells to supply water when the N. Santiam River turbidity is high. We have a need to use these backup wells every year, but only on an occasional basis. During a typical year, Chief Water Treatment Plant Operator Bob Zeller estimates we may need to rely on the wells to provide drinking water a total of 3-4 weeks. Neither of these two wells are year-round backup wells.

In November 2009, the City initiated a review of the two backup wells at the water treatment plant to determine if they can be rehabilitated or not. The City contracted with Groundwater Solutions, Inc. (GSI) to complete a field assessment, review the existing iron bacteria contamination, evaluate water chemistry and make recommendations to the City on options available. In March 2010, the City received GSI's preliminary report and findings.

- 1. **50 Well.** This 1930's era well is on the north side of the Water Treatment Plant and near the Power Canal discharge. Based on the GSI report, we conclude this well has too many iron bacteria and pH issues to rehabilitate it. GSI and City staff recommend it be decommissioned. The decommissioning will cost between \$14,000 to \$20,000.
- 2. 75 Well. This well, developed in 1957, is next to the N. Santiam River east of the water plant along the trail to Riverfront Park. GSI and City staff conclude this well can be rehabilitated. In March 2010, the City requested cost estimates from Stettler Supply and Emery and Sons Construction. It may cost up to \$150,000 to fully rehabilitate the 75 Well. If successful, the well production could increase from 70-200 gpm to 900-1200 gpm, which would meet the City's long term needs for a backup water supply. Work will include cleaning the well, 24' Rainey collection lateral, and the installation of a pump, motor, electrical, controls, building rehab, etc.
- 3. **Replacements.** Install radio read meters in high traffic areas of the City, such as Wilco Road and Shaff Road.
- 4. **Service Line & Valve Replacements.** Continue the monthly program to replace 4 service lines per month. The City continues to exercise water valves regularly and replace damaged or inoperable valves as they are identified to improve the operational efficiency of the water transmission and distribution system.

# **Sewer Enterprise Fund**

The Sewer Enterprise Fund provides funding to transport and treat raw sewerage for residential, commercial, and industrial customers in Stayton and Sublimity. Sewerage is delivered to the Wastewater Treatment Plant via 33 miles of sanitary sewer collection lines and 5 sanitary sewer lift stations in Stayton. Annual maintenance objectives include sewer line cleaning, televising, repair, replacement, lift station maintenance, treatment plant maintenance, pump maintenance, sludge disposal, tracking and billing sewer charges, etc. Revenues for this fund are received from Stayton sewer user fees as well as monthly flow-related fees from the City of Sublimity.

As an enterprise fund, revenues paid by customers must cover all costs for the City of Stayton wastewater collection, treatment and biosolids disposal system including personnel, materials and services, capital outlay and debt service.

#### **Alignment with Council Goals:**

Council Goal #1: Improve Public Infrastructure

Continue to improve public infrastructure to meet the demands of a growing community.

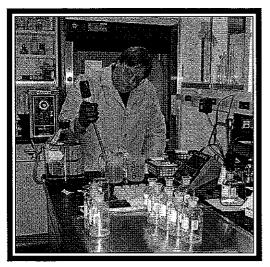

#### Implementation Strategy:

The Wastewater Enterprise Fund includes several major construction projects in FY 2010-2011 and a number of ongoing maintenance programs.

Wastewater Treatment Plant Improvements. The City has received preliminary approval of an \$11.3 million financing package from the U. S. Department of Agriculture's Rural Utilities Services (USDA-RUS) program. The City is waiting for a final determination of the total grant and loan amounts of the funding package before proceeding with advertising the project for bid. The Oregon Department of Environmental Quality (DEQ) and USDA-RUS have both approved the construction plans and bid documents. The scope of the project increased in 2009 when USDA informed the City that federal stimulus funds might be available to supplement the original USDA loan package. Consequently, Keller Associates and City staff outlined a revised scope of work for the project. Improvements to the wastewater treatment facility will include upgrades to the ultraviolet disinfection system, new rotating drum screen, a new selector cell, upgrades to the solids handling facilities, a rehab of an existing sludge tank, a new sludge dryer, and the modifications to the water system. The project also includes construction of a new maintenance and storage building at the WWTP plant site. Depending on when financing is approved by USDA, construction will begin in late summer or fall 2010 and will take two years to be completed.

#### **Revenue Assumptions:**

The Wastewater Fund relies on revenues from monthly Wastewater bills. The City has 2,436 Wastewater customers including 2,223 residential, 171 commercial, 16 industrial and 26 public/other.

Under terms of the RUS loan agreement the City will agree to charge wastewater utility rates that will guarantee repayment of the loan and ongoing maintenance and operation of the system. One component of the City's loan application was a revenue forecast and utility rate analysis prepared by the City's financial advisor Ray Bartlett, Economic & Financial Analysis. USDA and Mr. Bartlett have been fine-tuning the cash flow projections for the project in early 2010. Due to delays in USDA's financing review, the City Council elected to postpone the proposed 2009 rate increase. The City can expect sewer rate increases for the next three to four years to cover debt service costs. The first rate increase will be needed in July 2010.

#### PERSONNEL SERVICES:

Current staffing includes the Wastewater Supervisor, five Maintenance Worker positions, a .5 FTE position shared with the Water Fund, one student from Linn-Benton Community College (LBCC) and portions of the salaries of the Receptionist/Cashier and Utility Billing Clerk.

The City has 5 employees with 80+ years of experience in Wastewater systems treatment, operation and maintenance.

# **Sewer Enterprise Fund Continued**

#### **MATERIALS AND SERVICES:**

Materials and services covers all regular operating and maintenance expenses for the wastewater treatment plant, biosolids handling, pump stations and sewer collection system. Here are a few comments on major line items:

55110 Plant Operating Expense 200,000

Lab: Testing for NPDES permit compliance including lab equipment, chemicals, testing supplies, contract lab testing fees, & safety items. Plant: Replacement filters, lights, drives, belts, media, safety items, building/grounds maintenance & repairs, UV lights and covers. Replacement parts and equipment for all circuit boards, pumps, valves, motors, and controllers. Emergency repairs—\$45,000. Spare parts—\$31,500. Purchase of spare parts as recommended in the WWTP Master Plan. Contractors—\$50,000. Scheduled and unscheduled maintenance by contractors to mechanical, electrical, instrumentation and controls. JeTech training for process control.

55120 System Operating Expense 180,000

Lift Stations—\$25,000. Regularly scheduled maintenance and emergency repairs to the sewer lift stations. Collection System: Safety items, testing supplies, locating equipment, grounds maintenance of lift stations, TV Inspection & Cleaning — \$130,000. Contract with C-More Pimpe to perform annual maintenance program (4th year of 5 year contract). Includes line repairs, manhole repairs, smoke testing as problems are identified during inspections and cleaning.

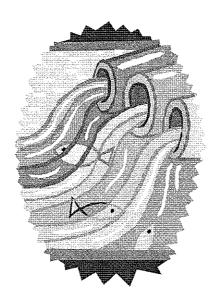

56110 Sludge Disposal

65,000

Chemicals (polymer and quicklime), testing, materials for the belt press sludge disposal system. Rock for roads at biosolids application sites.

#### **CAPITAL OUTLAY:**

Capital outlay expenses include a public improvement or equipment replacement that has an asset life of 5 years or longer and is valued at more than \$5,000. The WWTP upgrade is budgeted in the Sewer Construction Fund.

# Street Fund

The Street Fund provides funding to maintain 34.6 curb miles of improved streets (striping, sweeping, patching, overlays, slurry seals, etc.) and limited maintenance on 14.4 miles of unimproved streets (dust control, limited pothole patching, etc.).

This budget also provides funding to meet annual maintenance objectives (directional and regulatory signage, signal electrical costs, striping, dust control, street tree maintenance, leaf clean-up, storm drainage, bike path, traffic control, pavement management, and engineering, etc.).

# Alignment with Council Goals: Council Goal #1: Improve Public Infrastructure

Continue to improve public infrastructure to meet the demands of a growing community.

Priorities:

Identify and implement a Street financing funding package.

The Street Fund has limited ability to finance street maintenance programs and activities without the implementation of a local funding source to supplement the Oregon State Gas Tax distribution to the City. In 2009-2010 ODOT awarded Stayton \$167,293 in federal stimulus funds and a \$77,567 STP grant to be used for street maintenance. The City staff views these as a one-time infusion of funds, not a long-term solution. The City Council is considering a new funding package which may include a Transportation Maintenance Fee and/or a general obligation bond.

Public Works Sr. Engineering Technician Mike Brash and John Ashley, P.E. have completed a rewrite of Stayton's Public Works Design Standards and Construction Specifications. As of March 1, 2010, these were 95% complete and will be presented to the City Council for consideration prior to July 1, 2010.

### **PERSONNEL SERVICES:**

One full-time Maintenance Worker position is funded by the Street Fund. The Street Fund will no longer pay for a portion of the PW Supervisor's salary.

#### **MATERIALS AND SERVICES:**

Here is a brief explanation of some of the expense line items:

52510	Electricity	2,825	Traffic signals and controls.
55180	Street Tree Maintenance	5,000	Year 3 – On-going maintenance of street trees in parking strips to remove limbs that are safety hazards, obstruct view or impede the street sweeper and garbage trucks.
55170	Storm Drain Maintenance	1,000	Minor repairs to catch basins, inlets or to damaged pipes.
55190	Street Maintenance/Repair	55,000	Routine maintenance includes pot hole patching, dust control, sign replacement or repair, striping, sanding, snow removal, etc.
56120	Sidewalk/Bikeway Maintenance	1,000	Minor sidewalk repairs only.
62170	Contract Engineer	10,000	General Engineering Services related to street projects

### **CAPITAL OUTLAY:**

Capital outlay expenses includes a public improvement or equipment replacement that has an asset life of 5 years or longer and is valued at more than \$5,000.

75400	Street Reconstruction	70.000	Small reconstructions as needed.

Fund 40 - Street Fund

#### Fund 55 - Vehicle Replacement Fund

The Vehicle Replacement Fund provides funds to replace water, sewer, street, parks, and police department and other equipment used by the City on an established life-cycle basis. Basing equipment replacement on a life-cycle ensures timely replacement of the equipment. In addition, long-term replacement schedules, setting funds aside on a regular basis eliminates the financial spike that occurs from attempting to secure funding at the very end of the life-cycle.

# Fund 59 - NEDCO

This is a "pass through" fund for budget purposes only to account for a grant for Neighborhood Economic Development Corporation (NEDCO). Although, by definition this is a pass through grant the funds will be deposited in The City of Stayton checking account and a check issued to NEDCO, from the Community Development Block Grant The City will be responsible for an annual report regarding these grant funds. NEDCO provides pre-purchase and foreclosure counseling, outreach,

# Fund 60 - 9-1-1 Fund

This is a "pass through" fund for budget purposes only to account for state 9-1-1 telephone tax receipts. Although, by intergovernmental agreement, our 9-1-1 tax dollars are deposited directly with the Santiam Canyon Communications Council to fund that agency's operations, Oregon Budget Law still requires that the City reflect the funds in its own budget.

#### Fund 62 - Grant Fund

This Fund accounts for Federal, State and Local grants. The purpose of this fund is to track the revenues and expenditures related to grants and to allow for more accurate reporting, as required for most grant programs. Examples of grants to be reported in this fund include the State Library's Ready-to-Read Grant and the Local Law Enforcement Block Grant. The City continues to review grant opportunities on an on-going basis for programs to benefit the City of Stayton.

# Fund 63 - Trust and Agency Fund

This fund accounts for assets held and revenues received by the City in a fiduciary capacity to be used for certain specified purposes. Monies are received and held until certain conditions are met and then "passed through" to the appropriate entity.

# **Stayton Family Memorial Pool**

**The Stayton Family Memorial Pool** provides a wide variety of aquatic activities to Stayton area residents and surrounding communities.

Through our General Fund budget, Local Option Tax Levy, memberships and daily admissions we provide an extensive selection of programs. These include: Tai Chi (land based), Joint Efforts (Arthritis), Build-N-Burn (Shallow Water Aerobics), Deep Water Aerobics, Core Conditioning, Adult Stroke Correction Swim Lessons, 13 open/family swim activities and more!

We have noticed a considerable increase in our patron numbers, which demonstrates the community support for recreation. Swimming lessons continue to be in high demand as we offer a variety of lessons for all ages and skill levels.

The Pool and City of Stayton are partnering with the YMCA to help provide summer activities for youth. The YMCA will be using the pool and community center for summer programs. Kiwanis continues to provide Third Grade Swim Lessons to every child in the North Santiam School District; this provides both for education and recreation.

The pool facility provides employment opportunities for 1 full-time employee and approximately 25 part-time employees. Most part-time employees are local high school or college students.

## **Alignment with Council Goals:**

# Council Goal #5: Enhance the Livability of Stayton

The pool provides quality recreation activities for all ages.

# **MATERIALS AND SERVICES:**

As the costs of repairs and maintenance of the facility and equipment continue, it is important that expenditures for the Pool be carefully managed. We will frequently review classes and swim lessons being offered, membership programs, and other opportunities to maximize revenue and reduce expenditures.

#### **CAPITAL OUTLAY:**

Last budget year the Pool completed repairs through a loan provided by the Vehicle Replacement fund. The Loan was for \$90,000, with 2% interest and will be paid back with Local Option Tax Dollars over a four year period. This will be the second year for repayment on this loan. This payment is considered Debt Service and line items 81100 and 81420 record this Liability.

The Pool will need to be resurfaced with future Local Option Tax Dollars in the 2011-2012 budget.

#### Fund 72 - Water SDC Fund

The Water System Development Fund receives revenues from water System Development Charges (SDC), as outlined in Chapter 13.12 of the Stayton Municipal Code. Developers pay a Water SDC based on the adopted Water System Master Plan. Water SDCs are intended to pay for the oversizing or expansion of the City's water treatment plant, large transmission mains and water source improvements that directly benefit new growth in the City. Therefore, Water SDC funds may only be spent on water system improvements, including engineering, land acquisition, construction and debt service for projects that are listed in the City of Stayton Water System Master Plan. They may not be used for operations and maintenance of the system. The proposed 2009-2010 budget includes a transfer of funds to the Water Fund to pay for design and debt services related to construction of recent water system improvements and reserves funds for design, developer reimbursements for oversized transmission mains and future water system improvements.

#### Fund 73 - Sewer SDC Fund

The Sewer System Development Fund receives revenues from the sewer System Development Charges (SDC), as outlined in Chapter 13.12 of the Stayton Municipal Code. Developers pay a Sewer SDC based on the adopted Wastewater System Master Plan. Sewer SDCs are intended to pay for the oversizing or expansion of the City's wastewater treatment plant, sewer collection lines, pump stations and biosolids disposal system for improvements that directly benefit new growth in the City. Therefore, Sewer SDC funds may only be spent on improvements, including engineering, land acquisition, construction and debt service for projects that are listed in the City of Stayton Wastewater System Master Plan. They may not be used for operations and maintenance of the system. The proposed 2009-2010 budget includes transfer funds to the Sewer Fund to pay for design and construction of recent wastewater system upgrades and reserves funds for design, developer reimbursements for oversized collection lines, and future wastewater system improvements.

#### Fund 74 - Street SDC Fund

The Street System Development Fund receives revenues from transportation System Development Charges (SDC), as outlined in Chapter 13.12 of the Stayton Municipal Code. Developers pay a Street SDC based on the adopted Transportation System Master Plan. Transportation SDCs are intended to pay for oversizing or expansion of streets, traffic signals and bikeways that directly benefit new growth in the City. Therefore, Transportation SDC funds may only be spent on improvements, including engineering, ROW land acquisition and construction on projects that are listed in the City of Stayton Transportation System Plan. The proposed 2009-2010 budget reserves funds for design, developer reimbursements and transportation system improvements (such as 10th Avenue). The budget includes \$50,000 the city has contractually committed to ODOT as the city's share of the Hwy 22/Cascade Hwy interchange.

#### Fund 75 - Parks SDC Fund

The Park System Development Fund receives revenues from parks System Development Charges (SDC) assessed against residential development only, as outlined in Chapter 13.12 of the Stayton Municipal Code. Residential developers pay a flat fee SDC in an amount set by the adopted Parks System Master Plan. Parks SDCs are designed to pay for park land or park site improvements that directly benefit new growth in the City. Therefore, Parks SDC funds may only be spent on parks improvements and park land acquisition identified in the adopted Parks Master Plan. The proposed 2009-2010 budget includes funds for land acquisition for a future park or open space area. It also includes a \$50,000 match if the city is successful in obtaining a \$114,000 grant from the Oregon State Parks Department (OPRD) Local Government Grants program to construct a picnic shelter, restrooms and parking lot at Santiam Neighborhood Park on N. 3rd Avenue and Wildflower.

#### Fund 82 - Water Construction Fund

This construction budget is used to track expenses related to the \$5.1 million loan from the Oregon Economic and Community Development Department (OECDD) to improve the City water system. In 2007 and 2008, the City completed the Riverbank Stabilization project, replaced an 8" water line on Burnett between Evergreen and the Swimming Pool and conducted a leak detection study of the water distribution system. In March 2009, the City Council awarded a \$3.6 million contract to Emery & Sons, Inc. to construct improvements at the Stayton Water Treatment Plant on 1st Avenue and pump improvements at the E. Pine Street pump station. The Water Treatment Plant improvements include reconstruction of slow sand filter 3, repair and repainting of the 0.5 million gallon chlorine contact clearwell, installation of an emergency generator, electrical upgrade and new instrumentation controls. Black & Veatch engineering is the design engineer. Construction work will be completed by June 1, 2009.

#### Fund 83 - Sewer Construction Fund

The City has applied to both the USDA-Rural Utilities Services and the Oregon Department of Environmental Quality for loan funds to finance improvements to the Wastewater Treatment Plant. In December 2008, Keller Associates completed a pre-design report for the project, which was approved by DEQ in February 2009. The preliminary engineering estimate is \$ 5.8 million. This includes upgrades to the ultraviolet light (UV) system, Sequential Batch Reactor, a new maintenance and storage building, Equalization Basin (EQ Basin) improvements, a new rotating screen filter and a new polymer injection system. The City may qualify for DEQ's State Revolving Loan Fund (SRF) program, using federal stimulus package funds, which could increase the total amount of financing available to \$7.8 million. Design is scheduled for completion by October, 2009 and construction should begin by March, 2010. Construction will take 12-18 months to complete.

# Fund 85 - Parks Construction Fund

The Parks Construction fund will be used to track the expenditures related to the Oregon State Parks grant for the construction of a pedestrian foot bridge from the old Woolen Mill property on Florence Street to the Riverfront Park site.
