

		the inside curve. One person was not supportive a removing any parking except within 25 feet of the driveways.		
Parking on Mountain near intersection of Fir	We would like input on staff's recommendation. We also would like to know the level of interest or support for signage that discourages hospital parking.	We received 6 comments on this concept. Two people simply indicated that they would leave it to the Mountain Drive residents. All residents who commented who live in the Mountain Drive area were supportive of having signage to discourage hospital parking in the area. They expressed that this concern was heightened if the implementation of the parking suggestions on Fir were implemented.	City will fix the curb parking on Mountain Drive. Install "Residential Only" signs at the entry to the Mountain Estates subdivision. It is also noted that parking within 25 feet of the intersection is prohibited by law (as it is everywhere), therefore we will look into enhanced education and consider whether additional signage is necessary. It is generally not recommended to paint curbs or install signage because this is a universal law that applies everywhere	
Sight distance from Pine and Fir onto North Tenth	Do you have any additional thoughts or comments on the sight distance at the intersections of Pine and Tenth and Fir and Tenth?	Four people provided additional comments related to the sight distance at Pine and North 10 th . It should be noted that comments related to speeding on 10 th were related to this issue as well. One person agreed that sight distance was not a problem. Two of the commenters essentially said that the issue is "real" regardless of AASHTO and that the City should take additional action. The third person indicated that the issue with sight distance as related to landscaping and retaining wall.	While not warranted by Public Works Design Standards or American Association of State Highway and Transportation Officials (AASHTO), the hospital has taken it upon themselves to lower the retaining wall at Pine and 10 th to help improve sight distance
